GOLDEN EDGE CUTLERY

P.O. Box 1279 • 16350 S. Golden Road • Golden Colorado 80401 • 1-800-828-1925

Spyderco Collectors! We have misc. numbered knives between 0 and 100. Call for details.

Greetings and Welcome to our newest catalog.

It's no wonder that more people today are shopping by mail. As busy as our lives are, who has time to battle traffic, fight for parking and argue with pushy salespeople? Shopping mail order allows you to take your own sweet time browsing through a catalog while sipping your morning coffee. You can place you order from the comfort of your own home and have your purchases delivered right to your doorstep. How relaxing—how simple!

Golden Edge Cutlery adds to your convenience by offering a toll-free number to call, and knowledgeable Sales Representatives to cheerfully answer your questions and take your order. We're small enough to offer personalized service, yet efficient enough to ship your order within 24 hours. We want you to receive your order before it becomes a vague and distant memory. Probably the biggest advantage to shopping Golden Edge Cutlery is that we save you money by shipping your order FREE anywhere in the U.S. This is a service not offered by most mail order companies, but one we are sure you will appreciate.

So take a look at our new catalog and then give us a call. We are confident that we will charm you into a loyal customer.

Sincerely,

Joe Megan Dana Belinda

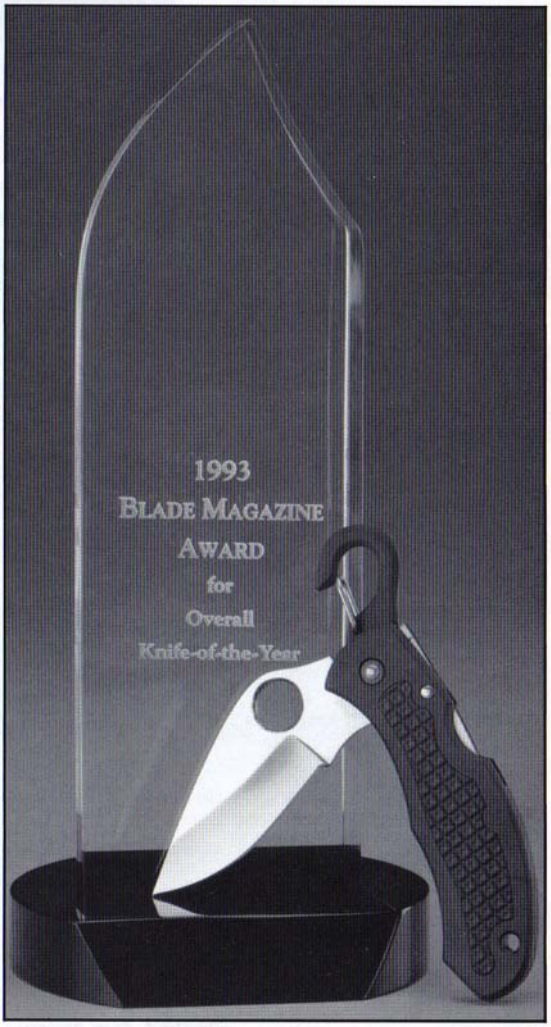
When introduced in 1981, Spyderco's CLIPITS™ were deemed too *ugly* to sell. As Spyderco continues to grow, they've proven that durability and function win over looks and beauty.

The success of Spyderco's purely functional knives is confirmed by the many awards they have won over the years. The **SNAP-IT** model won the "Overall Knife of the Year" award at the 1993 Blade Magazine Show. This makes the sixth year in a row that Spyderco has won an award at this show. It is the second time Spyderco has received the award for "Overall Knife of the Year".

The Snap-It is the ideal knife for active outdoorsmen. Whitewater rafters, climbers and backpackers know the sizeable amount of gear needed for their sport. They also know how important it is to have immediate access to their tools in dangerous situations. The Snap-It is secured by a snap shackle to attach the knife to a D-ring, zipper, or belt loop. It offers immediate access without compromising safety. The hole in the blade has been enlarged to facilitate opening one-handed when gloves or mittens must be worn. Even the size of the lanyard hole was increased for easier threading under adverse conditions. The snap shackle is metal reinforced for extra strength. You can be assured of a firm grip with the lightweight Zytel® handle inlaid with Kraton.®



Available in SpyderEdge and PlainEdge and a choice of black or red handle color. Suggested retail $55.95.
MODEL #C26 GOLDEN EDGE $49.95

Blade Steel	G2	Weight	2.4 oz.
Overall Length	6 7/8"	Handle	Zytel/Kraton
Edge Length	2 3/8"	Sheath	
Blade Thickness	1/8"	Made In	Japan

Golden Edge Cutlery carries the full line of Spyderco knives and accessories, although not all are pictured in our catalog. If you have a specific model in mind, just give us a call—we'll be glad to help.

Spyderco, Inc.

Over ten years ago, Spyderco's designer conceived an idea for the perfect pocket knife. This knife had four features he felt were essential. ■ **The first** was the simple idea of opening a knife with one hand—a concept taken for granted today. The design process went from a thumb-stud, to a lobe opener, to a rough scratch pattern. Next, a dent was tried, then a dent on both sides of the blade, and, lastly, the renowned hole in the blade! This has proven the easiest to grasp and open without getting in the way. ■ **The second** feature was to make the knife easily accessible. He knew that to gain instant access to the knife, it would have to sit at the top of one's pocket—no fumbling with a sheath or digging through pockets. From this the pocket clip was born. ■ **Thirdly,** he insisted low-maintenance be a requirement. Stainless steel was the best material available—practically maintenance free. This same material was used, not only for the blade, but for the handle, lock, spring, pins, and clip! ■ **The fourth,** and most important feature was maximum cutting power, supplied by the teeth. Since Spyderco was one of the first to put this edge on a pocket knife, it became known as the SpyderEdge.

POLICE MODEL Modified clip point blade with unsharpened false edge. Choose from SpyderEdge or PlainEdge. This model is also available left-handed. Suggested retail $121.95.
MODEL #C07 GOLDEN EDGE $109.95

MARINER Sheepsfoot blade. Teardrop shaped vent in handle aids in drying lock and spring. Available in SpyderEdge and PlainEdge. Left-handed model in SpyderEdge only. Suggested retail $103.95.
MODEL #C02 GOLDEN EDGE $93.95

HARPY Hawksbill blade. Teardrop shaped vent in handle aids in drying lock and spring. Available in SpyderEdge and PlainEdge. Suggested retail $91.95.
MODEL #C08 GOLDEN EDGE $82.95

HUNTER Drop point blade. Available in SpyderEdge and PlainEdge. Suggested retail $98.95.
MODEL #C03 GOLDEN EDGE $88.95

WORKER Modified clip point blade. Sharpened false edge allows user to open blade slightly and still cut small items. Available in SpyderEdge and PlainEdge. Suggested retail $99.95.
MODEL #C01 GOLDEN EDGE $89.95

STANDARD Skinning blade. This model is made of AUS-6A stainless steel, and pocket clip is stamped out. Available in SpyderEdge and PlainEdge. Suggested retail $61.95.
MODEL #C05 GOLDEN EDGE $55.95

"I own four Spyderco knives. My 'Worker' is the first thing I grab when I put my pants on, and the last thing I put away before bed. Excellent knife!"
—Douglas A. Cook, Anchorage, AK.

EXECUTIVE Drop point blade. Available in SpyderEdge and PlainEdge. Suggested retail $88.95.
MODEL #C04 GOLDEN EDGE $79.95

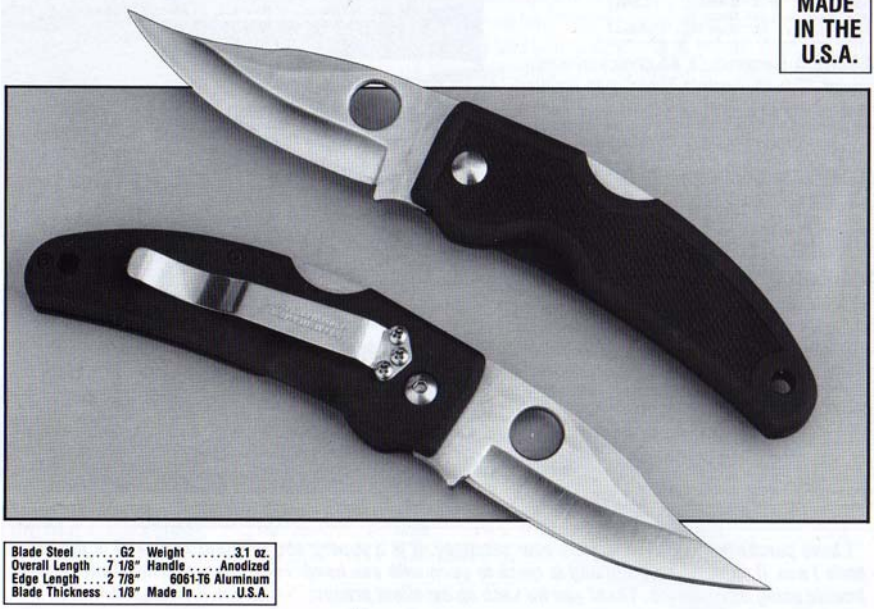
Blade Steel	G2	Weight	3.1 oz.
Overall Length	5 1/4"	Handle	Stainless steel
Edge Length	2 1/8"	Sheath	
Blade Thickness	.1/10"	Made In	Japan

CO-PILOT Short skinning blade. Designed for legal airline travel and doubles as a money clip. Available in SpyderEdge and PlainEdge. Suggested retail $64.95.
MODEL #C09 GOLDEN EDGE $57.95

Blade Steel	G2	Weight	2.77 oz.
Overall Length	5 1/8"	Handle	Stainless steel
Edge Length	1 3/4"	Sheath	
Blade Thickness	.1/10"	Made In	Japan

BLACKHAWK Finally, for all you faithful Bowie fans, here's your 1st *folding* Bowie—CLIPIT™ style! The Blackhawk will probably be the most "hassle free" Bowie you'll ever own. You don't have to wait for excursions into the outback—you can carry and use it everyday. The clip permits comfortable carry in pocket, on boots or on a belt. (The fact that it is quite a bit smaller than traditional Bowies certainly adds to this comfort!) The clip point Bowie style blade is ground from G2 stainless steel. A unique finger choil is created from both blade and handle when blade is opened and locked in place. Checkered pattern in the aluminum handle gives a firm grip. Spyderco's latest CLIPIT is proudly made in the USA and is available in SpyderEdge and PlainEdge. Suggested retail $99.95.
MODEL #C24 GOLDEN EDGE $89.95

MADE IN THE U.S.A.



Blade Steel	G2	Weight	3.1 oz.
Overall Length	7 1/8"	Handle	Anodized
Edge Length	2 7/8"		6061-T6 Aluminum
Blade Thickness	1/8"	Made In	U.S.A.

Spyderco, Inc.

When you've set out for some invigorating exercise, you most certainly don't want to get weighed down with gear. So, whether you're hiking one of Colorado's famous fourteeners, forging a trail by mountain bike, or even just out for a brisk walk, Spyderco's CLIPIT™ Zytels are an essential tool. They save weight without compromising strength. Zytel is a nearly industructible plastic made of a fiberglass filled nylon. This is the same material used in motocross motorcycle rims. Each Zytel has the convenience of a pocket clip and one-handed opening, along with a volcano grip handle pattern to provide a secure hold even when hands are wet.

MERLIN Designed to cut fishnet, but you'll find it useful in many marine applications. Available only in SpyderEdge and black handle. Suggested retail $54.95.

MODEL #C21SBK GOLDEN EDGE $48.95

Blade Steel	G2	Weight	1.76 oz.
Overall Length	6 1/2"	Handle	Zytel
Edge Length	2 1/2"	Sheath	
Blade Thickness	1/8"	Made In	Japan

DELICA The perfect size. A feature that makes this knife Spyderco's most popular Zytel CLIPIT. The skinning style blade is available in SpyderEdge, PlainEdge, and the increasingly popular 50/50 SpyderEdge/PlainEdge. Handle colors: black, blue, green, and pink (50/50 edge comes in black only). Suggested retail $45.95.

MODEL #C11 GOLDEN EDGE $40.95

Blade Steel	G2	Weight	1.76 oz.
Overall Length	6 7/8"	Handle	Zytel
Edge Length	2 1/2"	Sheath	
Blade Thickness	3/32"	Made In	Japan

ENDURA Identical to the Delica, but with an inch more cutting power. An excellent hunting knife or all-around work knife. Available in SpyderEdge or PlainEdge with handle colors of black, green, and red. Suggested retail $54.95.

MODEL #C10 GOLDEN EDGE $48.95

Blade Steel	G2	Weight	2.72 oz.
Overall Length	8 1/2"	Handle	Zytel
Edge Length	3 3/8"	Sheath	
Blade Thickness	1/8"	Made In	Japan

RESCUE A paramedic's #1 choice in emergencies. The sheepsfoot blade style enables the user to free a victim without injury. Available in SpyderEdge only and handle colors of black, and yellow. Suggested retail $54.95.

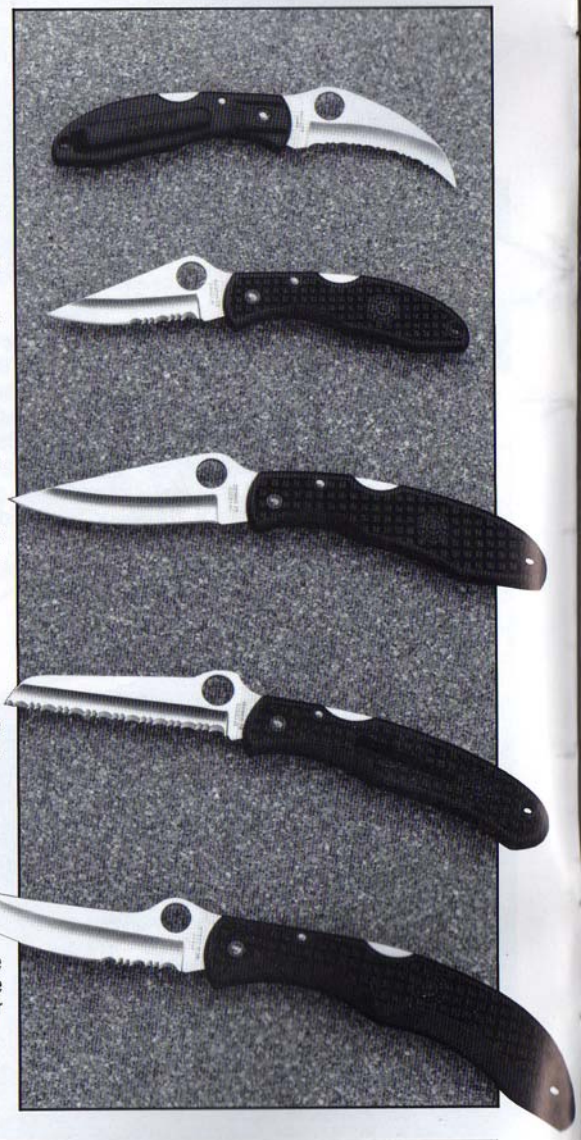
MODEL #C14 GOLDEN EDGE $48.95

Blade Steel	G2	Weight	2.72 oz.
Overall Length	8 1/2"	Handle	Zytel
Edge Length	3 3/8"	Sheath	
Blade Thickness	1/8"	Made In	Japan

CATCHERMAN The ideal folding filet knife for successful fishermen. Quick one-handed opening so your catch of the day doesn't get away! Blade style available in either 75/25 PlainEdge/SpyderEdge or all SpyderEdge. Handle colors are black or yellow. Suggested retail $54.95.

MODEL #C17 GOLDEN EDGE $48.95

Blade Steel	8A	Weight	2.67 oz.
Overall Length	10 1/2"	Handle	Zytel
Edge Length	4 3/8"	Sheath	
Blade Thickness	1/16"	Made In	Japan



***"I have purchased two Delicas from your company. It is a superb and efficient knife and is the only knife I use. It clips on anything and is quick to open with one hand. I am so used to this knife, I have trouble using other knives. Thank you for such an excellent product."*—Joseph P. Arzaga, Brooklyn NY**

Spyderco, Inc.

TuFFram This remarkable new coating adds longevity to these CLIPITs by making them virtually scratch resistant. TuFFram is a special type of anodizing used in coating aluminum. The coating is very thin (only 3 microns), but makes the 6061-T6 aircraft aluminum scales very strong, yet still lightweight. The exposed rivets and darkened handles give these models a new look.

TuFFram Police Model Available in SpyderEdge as well as PlainEdge. Suggested retail $146.95. **MODEL #C07ATU GOLDEN EDGE $131.95**

Blade Steel .....G2 Weight .....4 oz.
Overall Length ..9 1/2" Handle 6061-T6 Alumi-
Edge Length ....3 3/4" num/Tuffram coating

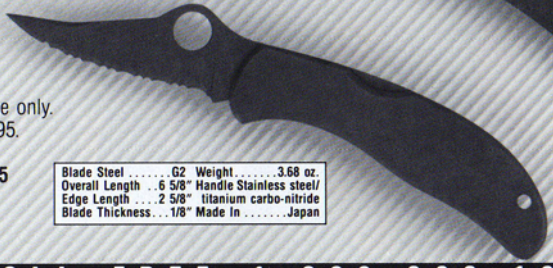
Overall Length ..5 1/8" Handle 6061-T6 Alumi-
Edge Length ....1 3/4" num/Tuffram Coating
Blade Thickness..1/10" Made In .....Japan

TITANIUM CARBO-NITRIDE Spyderco's blackened models have become a favorite among law enforcement personnel, night watchmen or anyone who wants their knife to be less conspicuous. Even businessmen find this to be an advantage, because it blends well with their dark dress clothes. Both the Worker and the Police Model are covered ''head-to-toe'' in the new Blak-Ti coating which is corrosion resistant and scratch resistant. Blak-Ti takes on the finish of the object being coated. The stainless steel models are given a high-pressure water blasting to subdue the surface shine, providing a matte finish. Likewise, the Blak-Ti coating takes on a dull, matte finish. Water blasting is used in place of sand blasting to eliminate the possibility of sand becoming imbedded in the mechanisms of folding knives.

Blak-Ti Police Model Available in SpyderEdge and PlainEdge. Left hand models are available. Suggested retail $146.95. **MODEL #C07BK GOLDEN EDGE $131.95**

Blade Steel .....G2 Weight .....5.44 oz.
Overall Length ..9 1/2" HandleStainless steel/-
Edge Length ....3 3/4" titanium carbo-nitride
Blade Thickness ..1/8" Made In .....Japan

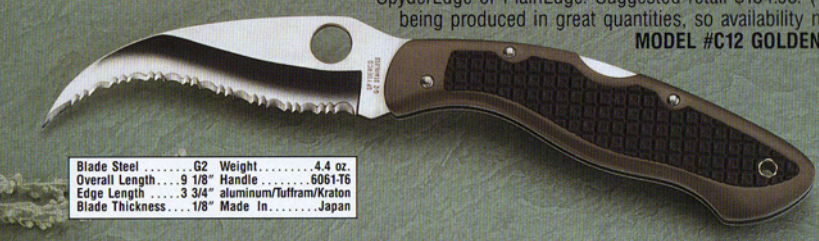


Blak-Ti Worker Available in SpyderEdge only. Suggested retail $129.95. **MODEL #C01SBK GOLDEN EDGE $116.95**

Blade Steel .....G2 Weight.....3.68 oz.
Overall Length ..6 5/8" Handle Stainless steel/
Edge Length ....2 5/8" titanium carbo-nitride
Blade Thickness...1/8" Made In .....Japan

Spyderco, Inc.

CIVILIAN Spyderco has traditionally designed work knives with specific uses in mind and up until now has never designed a knife as just a weapon. However, Spyderco has been involved with law enforcement for quite some time, and although the CLIPIT™ Police Model has been a favorite for many years, it wasn't designed expressly for self defense. After several requests from undercover law enforcement personnel, Spyderco produced the Civilian model. This would serve as the first of several folding knives designed and produced as a law enforcement back-up *weapon*. The patented reverse "S" curve provides a variety of aggressive contact points. 6061-T6 aircraft aluminum is used for the handle, which makes a blade of this size light weight and easily carried. TuFFram coating on the aluminum is virtually scratch resistant and large Kraton® surface on both handle and clip provide sure grip. The Civilian is available in either SpyderEdge or PlainEdge. Suggested retail $184.95. (This item is not being produced in great quantities, so availability may be limited.)
MODEL #C12 GOLDEN EDGE $165.95



Blade Steel	G2	Weight	4.4 oz.
Overall Length	9 1/8"	Handle	6061-T6
Edge Length	3 3/4"	aluminum/Tuffram/Kraton	
Blade Thickness	1/8"	Made In	Japan

PRO-VENATOR This model was quickly adopted as a hunter's best friend. The classic drop-point blade shape has ideal features for skinning and caping and the combination edge gives the user the best of both worlds. The SpyderEdge at the base of the blade facilitates cutting through small bone or cartilage, while the increased belly of the PlainEdge works great for skinning and scraping. The tip of the blade is pointed enough for delicate caping as well. Soft rubberized Kraton inlaid on the handle assures a secure grip should hands become wet. The Kraton inlaid clip gives added confidence that the Pro-Venator will be in your pocket when you need it, and not back up on the mountain. The combination of all these features make the Pro-Venator the perfect folding field companion. This model is currently available in 40/60 PlainEdge/SpyderEdge only.
Suggested retail $104.95. **MODEL #C13PS GOLDEN EDGE $93.95**

Blade Steel	G2	Weight	4 oz.
Overall Length	6 3/4"	Handle	Stainless steel
Edge Length	2 5/8"		/Kraton
Blade Thickness	1/8"	Made In	Japan

LADYBUGS Spyderco's Ladybug is so easily carried, you'll never have an excuse to be without a knife! Attach it to your key ring, carry it in your pocket or toss it in your purse. The Ladybug incorporates all the features of its bigger counterparts, except for the clothing clip. Tough Zytel handle is practically indestructible. The G2 stainless steel blade is available in 50/50 SpyderEdge/PlainEdge only. Choose from handle colors of black, green, blue, gray, red, yellow and pink. Suggested retail $25.95. **MODEL #LB GOLDEN EDGE $22.95**

Blade Steel	G2	Weight	0.6 oz.
Overall Length	4 1/2"	Handle	Zytel
Edge Length	1 3/4"	Sheath	
Blade Thickness	1/16"	Made In	Japan

GOLDEN EDGE CUTLERY

For all of you who have anxiously awaited this catalog, we would like to apologize for the delay and thank you for your patience.

A 48 page catalog is a first for Golden Edge Cutlery, and it took quite an effort to pull it all together. We hope you'll find the end result to be worth it-- that is a good selection of quality cutlery from some of the best knife companies in the industry and convenient shopping (toll free calling and free shipping).

With this first catalog under our belts, the next ones can only get better. To do that, we'll need your help. If you should have any suggestions, questions or comments, just give us a call- we'd be happy to listen to your opinion. With enough feedback, we can implement the changes to better serve our customers.

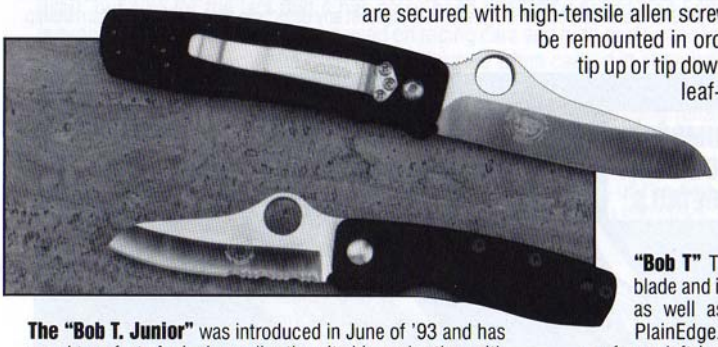
We hope you'll take advantage of our **free shipping** policy and place your order today!

SPYDERCO CUSTOMS

ROBERT TERZUOLA (ter · zoo · oh · la) of Santa Fe, New Mexico, has gained the respect of his peers for his efficient, high-strength designs that reflect a subtle military flavor. Spyderco's American-made CLIPIT™ showcases his 15 years experience as a master designer and knifemaker. The modified drop-point blade pivots between high-lubricity nylon bushings to ensure glassy-smooth action. Aluminum scales are bead-blasted and hard anodized for a matte black finish. Scales are secured with high-tensile allen screws. Clothing clip can be remounted in order to carry the knife tip up or tip down. The stainless steel leaf-spring lock closes easily with one hand and a ball bearing detent prevents the knife from opening in your pocket.



The "Bob T. Junior" was introduced in June of '93 and has caught on fast. An inch smaller than its bigger brother with blade styles in PlainEdge and 50/50 combination. We can special order these in left-hand also. Suggested retail $115.95.

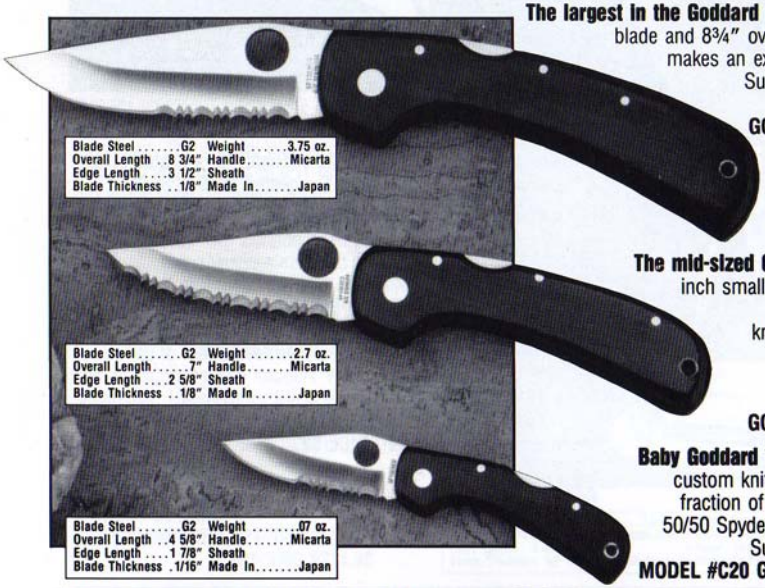
Overall Length..7 3/4"	Handle.....6061-T6
Edge Length ...3 1/4"	Aluminum Scales
Blade Thickness..1/8"	Made In.....U.S.A.

WAYNE GODDARD is another master in the design and building of folding knives with 29 years of experience to his credit. The ultimate culmination of the finest craftsmanship and materials have united at the drafting board and grinder to yield his design for the perfect CLIPIT. A micarta handle is used for strength, comfort, lightweight and good looks. Handle shape will also give the optimum in protection against sliding up on the blade. The skinning style blade is ground from G2 stainless steel and is offered in SpyderEdge and the ever popular 50/50 SpyderEdge/PlainEdge. And, of course, there is a stainless steel pocket clip for carrying convenience.



The largest in the Goddard family boasts a 3½" blade and 8¾" overall length. This size makes an excellent hunting knife.
Suggested retail $129.95.
MODEL #C16
GOLDEN EDGE $116.95

Blade Steel.....G2	Weight .....3.75 oz.
Overall Length ..8 3/4"	Handle.....Micarta
Edge Length ....3 1/2"	Sheath

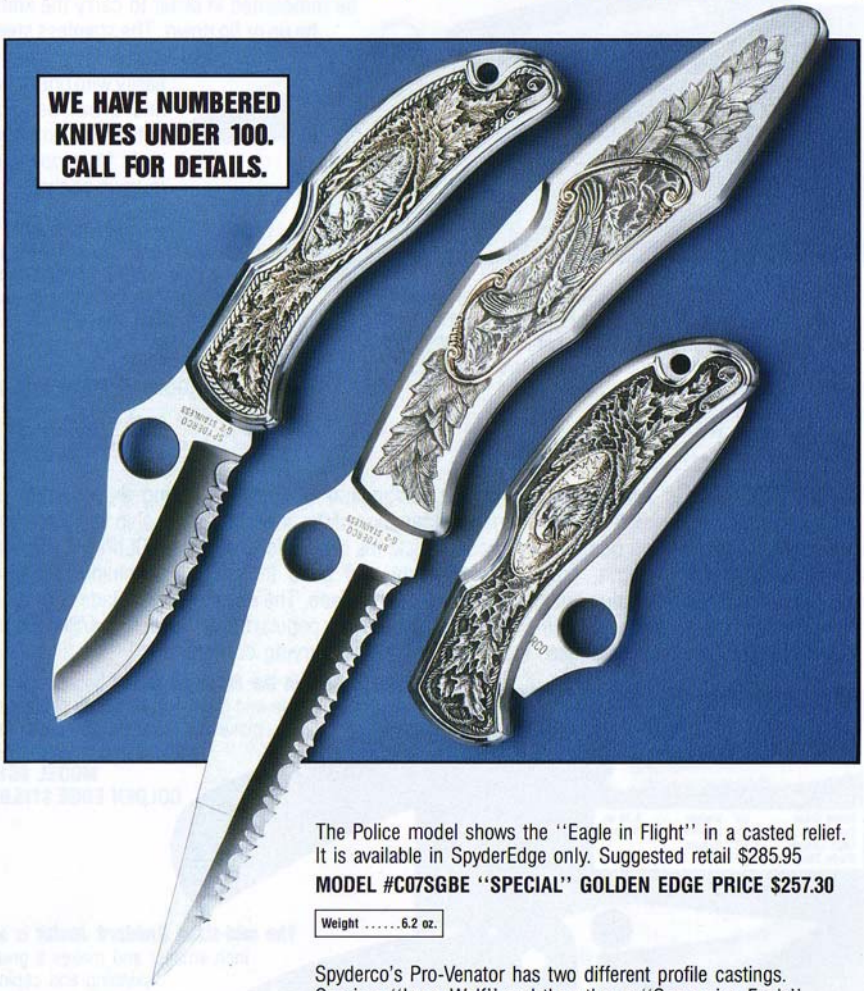
Overall Length ..4 5/8"	Handle.....Micarta
Edge Length ....1 7/8"	Sheath
Blade Thickness .1/16"	Made In.....Japan

SPYDERCO CUSTOMS

GARY BLANCHARD is an internationally renowned artist who, after 10 years of engraving and carving experience, has expanded his craft to include casting. His collaboration with Spyderco brings true beauty to the Police model and Pro-Venator. Utilizing casting as a means of reproducing an original piece of art enables Gary's work to reach more people. Customers normally have to wait years to receive a Blanchard design. Golden Edge Cutlery not only has these designs in stock, but also at reasonable prices. All work is crafted in the highest quality sterling silver and jeweler's bronze and will be guaranteed against any defects in material and craftsmanship.



The Police model shows the "Eagle in Flight" in a casted relief.
It is available in SpyderEdge only. Suggested retail $285.95

MODEL #C07SGBE "SPECIAL" GOLDEN EDGE PRICE $257.30

Weight .....6.2 oz.

Spyderco's Pro-Venator has two different profile castings.
One is a "Lone Wolf" and the other a "Screaming Eagle".
Both are available in 40/60 PlainEdge/SpyderEdge.
Suggested retail $261.95

MODEL #C13GBW for the wolf.
#C13GBE for the eagle.

"SPECIAL" GOLDEN EDGE PRICE $235.70

Weight .....4.7 oz.

WALKER DESIGNED/KLOTZLI MADE H.P. Klotzli came up with the idea for a Swiss made CLIPIT™ of a Michael Walker design. Sal Glesser selected one of five designs presented and made sure it met his standards. The result of these three well-known sources brings us the most unique CLIPIT design to date. H.P. Klotzli of Switzerland carries on a tradition of knifemaking spanning over 100 years. His idea of scales composed of carbon fiber is unique, not only for the material itself, but also for the fact that it has never been used on a production knife before. Carbon fiber is expensive and is currently being used on racing cars and high performance aircraft. This material has become popular with the Swiss and is formed when carbon is stretched into a very thin fiber. The fibers are tightly woven into a pattern, creating a very strong weave, and then resin impregnated. The resulting material is strong and lightweight and has an amazing tensile strength. In fact, it is much stronger than steel in terms of tensile strength per weight.

Michael and Patricia Walker reside in Taos, NM, and have been considered one of the best husband/wife knifemaking teams in the world. They were one of the first knifemakers to begin using exotic materials such as titanium and made popular the Linerlock®. They actually own the registered trademark for Linerlock. The clip, spring, pivot pin and screws are all made from colored titanium, which is lighter and stronger than stainless steel. The color is achieved by passing an electrical current through the titanium. The amount of current determines the color produced.

Blade Steel . . . ATS-34	Weight . . . . . 1.5 oz.
Overall Length . 5 5/16"	Handle . . . . Epoxy
Edge Length . . . . 2 1/2"	Impregnated Carbon Fiber
Blade Thickness . 3/32"	Made In . . Switzerland

THE WALKER/KLOTZLI incorporates all the Spyderco CLIPIT features: hole in the blade for one handed opening, pocket clip for easy carry and, of course, the SpyderEdge serrations. The ATS-34 stainless steel blade is certainly a plus, as this steel is well-known for its edge holding capabilities.
Available in SpyderEdge or PlainEdge.
Suggested retail $299.95.
MODEL #C22 GOLDEN EDGE $269.95

EVOLUTION EDITION Prior to this set, Spyderco had never introduced a model specifically for collectors. The two knives in this set represent Spyderco's technological and design achievements over an eleven year time span. The original Worker came out in 1981 and was the first CLIPIT ever made. It has an old style clip which is secured by only two screws. The 1992 Worker has a damascus blade made by Tim Zowada of Kalamazoo, Michigan. The stainless steel handle is inlaid with Kraton® as is the pocket clip. Both knives are numbered and come with an acrylic display dome. Production of the Evolution Edition sets are limited to 1000 pieces and, unfortunately, neither of these two models will be sold separately. The mold for the original worker will be destroyed after this production run; so don't miss your chance to capture part of Spyderco's history with this one-of-a-kind collector's item. Suggested retail $494.95.
MODEL #C01COM
SETS NUMBERED 301-700 $359.95
701-1000 $314.95

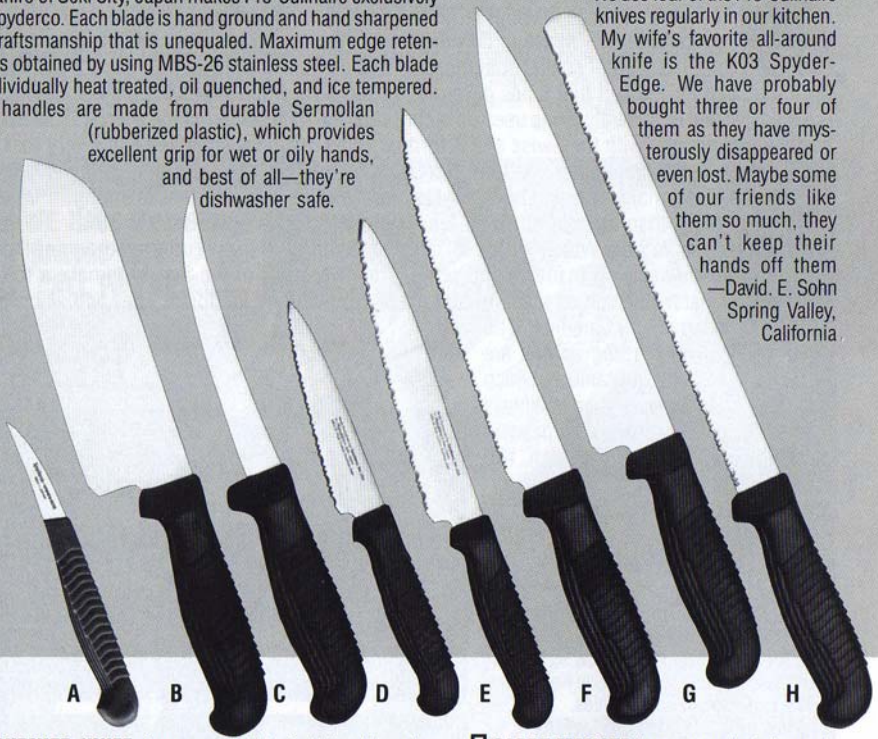
Pro Culinaire

Professional chef quality, priced for the home gourmet.

Masahiro of Seki City, Japan makes Pro-Culinaire exclusively for Spyderco. Each blade is hand ground and hand sharpened for craftsmanship that is unequaled. Maximum edge retention is obtained by using MBS-26 stainless steel. Each blade is individually heat treated, oil quenched, and ice tempered. The handles are made from durable Sermollan (rubberized plastic), which provides excellent grip for wet or oily hands, and best of all—they're dishwasher safe.

"We use four of the Pro-Culinaire knives regularly in our kitchen. My wife's favorite all-around knife is the K03 SpyderEdge. We have probably bought three or four of them as they have mysterously disappeared or even lost. Maybe some of our friends like them so much, they can't keep their hands off them
—David. E. Sohn
Spring Valley, California



A TOURNIER KNIFE (tour · nay) This 2 5/8" mini paring knife was designed for in-hand cutting chores as well as gourmet decorating. It is not only petite, but strong, which lends itself as a favorite among wood carvers. Blade is 3/8" wide, black handle and PlainEdge only. 5 7/8" overall length. Suggested retail $13.95.
MODEL #K09PBK GOLDEN EDGE $12.95

B SANTOKU This Japanese vegetable slicer is a "must have" for your kitchen. After chopping and dicing, scoop food up onto extra wide blade (2 1/4") and transfer directly to skillet. The curved 6 7/8" blade allows an easily controlled rocking motion for fine dicing. Black handle and PlainEdge only. 12" overall length. Suggested retail $37.95.
MODEL #K08PBK GOLDEN EDGE $33.95

C FILET KNIFE Excellent for, well... fileting! Also for de-boning, cleaning fish, etc. 5 3/4" blade is 3/4" wide, Black handle and PlainEdge only. 11" overall length. Suggested retail $25.95.
MODEL #K06PBK GOLDEN EDGE $22.95

D PETITE GARDE MANGER This 4 1/2" blade is easily maneuvered for small cutting chores, paring and general cooking. Often used as a "deck knife" on professional fishing boats. 1" wide with black handle in PlainEdge or SpyderEdge. A red handle is available in SpyderEdge only. 10 3/4" overall length. Suggested retail $15.95.
MODEL #K05 GOLDEN EDGE $13.95

E GARDE MANGER (gar · mon · jay) Formerly Spyderco's 6 1/2" Utility knife. An article in a popular consumer magazine has stated "...may be the best all-around kitchen utility knife available..." 1 1/8" wide with a black handle. Available in SpyderEdge only. 10 3/4" overall length. Suggested retail $23.95.
MODEL #K04SBK GOLDEN EDGE $21.95

F CARVING KNIFE Superb turkey carver! Also great for general cooking, slicing and dicing. 1 1/4" wide blade is 8 1/4" long with a black handle. Available in SpyderEdge or PlainEdge. 13 3/8" overall length. Suggested retail $29.95.
MODEL #K03BK GOLDEN EDGE $26.95

MARK I™ Designed over twenty years ago this combat/survival knife has stood the test of time. It has a double edged, non-reflective black blade made from high carbon stainless steel. Comes with a cordura sheath for easy access. Suggested retail $86.00
MODEL #GB-MK1 GOLDEN EDGE $77.40

AL MAR KNIVES

AL MAR We are proud to be able to provide you with some classic knife designs of the late Al Mar. Mr. Al Mar was a major influence in the cutlery industry. He created the specialty knife market with his Al Mar line. He was most generous with his knowledge in assisting companies like Spyderco and SOG in their early stages.

The classic design of the Eagle, Falcon and Hawk will last a lifetime. The smooth clean lines and sleek white micarta handles give these models a truly elegant look. All models incorporate the positive front lock which was designed and made popular by H. McBurnette and Al Mar.

EAGLE has a 3¾" blade length.
Suggested retail $170.00.
MODEL #AL-EAG
GOLDEN EDGE $153.00

Blade Steel	RS30	Weight	4 oz.
Overall Length	8 7/8"	Handle	White Micarta
Edge Length	3 3/4"	Sheath	Leather
Blade Thickness	.3/32"	Made In	Japan

FALCON is 2¾" in blade length.
Suggested retail $106.00.
MODEL #AL-FAL
GOLDEN EDGE $95.40

Blade Steel	RS30	Weight	3 oz.
Overall Length	7"	Handle	White Micarta
Edge Length	2 3/4"	Sheath	Leather
Blade Thickness	.1/16"	Made In	Japan

HAWK has a
blade length of 2¼".
Suggested retail $86.50.
MODEL #AL-HWK
GOLDEN EDGE $77.80

Blade Steel	RS30	Weight	2 oz.
Overall Length	5 3/4"	Handle	White Micarta
Edge Length	2 1/4"	Sheath	Leather
Blade Thickness	.1/16"	Made In	Japan

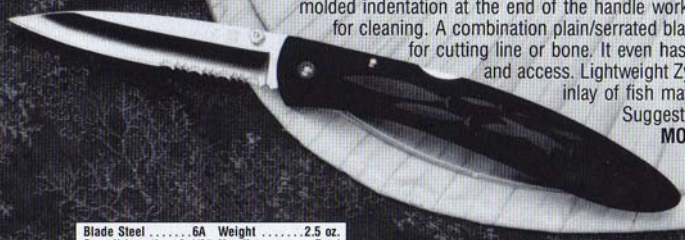
WARRIOR This the ultimate in combat style knives with a full ¼" blade thickness and total blade length of 7¼". The 6" straight edge combined with 4¾ inches of teeth on the top of the blade provides awesome cutting power. Molded finger grooves in the black neoprene handle greatly enhance the gripping power. Suggested retail $204.00
MODEL #AL-WAR GOLDEN EDGE $183.60

Blade Steel	6A	Weight	1 lb. 3 oz.
Overall Length	13"	Handle	Blk Neoprene
Edge Length	6"	Sheath	Leather
Blade Thickness	1/4"	Made in	Japan

AL MAR KNIVES

ANGLER Fishing season never ends. Whether you're on ice this winter or casting your line in the Pacific, the Angler will do the job, regardless of the size of your catch. The molded indentation at the end of the handle works extremely well as a scoop for cleaning. A combination plain/serrated blade filets nicely and is superb for cutting line or bone. It even has a pocket clip for easy carry and access. Lightweight Zytel forms the handle and the inlay of fish may give you a little extra luck! Suggested retail $54.00.

MODEL #AL-ANG
GOLDEN EDGE $48.60



Blade Steel	6A	Weight	2.5 oz.
Overall Length	9 1/2"	Handle	Zytel
Edge Length	3 3/4"	Sheath	
Blade Thickness	.3/32"	Made In	Japan

QUICKSILVER This model has all the durability of a stainless steel pocket knife without all of the weight. The vents in the handle add a distinct look while reducing the weight to a bare 3.5 ozs. Thumb stud and pocket clip allow for quick, one-handed opening and easy access. Finally, the combination blade gives enough versatility to cut just about anything. Suggested retail $49.00.

MODEL #AL-QKS
GOLDEN EDGE $44.10

Blade Steel	6A	Weight	3.5 oz.
Overall Length	7 7/8"	Handle	Stainless Steel
Edge Length	3 1/8"	Sheath	
Blade Thickness	1/8"	Made In	Japan

Blade Steel	6A	Weight	8 oz.
Tool Length	6 1/4"	Handle	Stainless Steel
Serrated Blade	2 3/8"	Sheath	Leather
Plain Blade	2 3/4"	Made In	Japan

4x4 A perfect companion for the person who needs a set of tools wherever they go. The 4x4 has a plain edge blade, serrated edge blade, nail file, phillips head screwdriver, flat head screwdriver, and pliers. The leather casing around the handle allows a secure and comfortable grip when using the pliers. A lanyard ring at the base of the handle closes around the pliers to lock in the closed position. Each one comes with a leather belt sheath so you'll never need be without it. Suggested retail $140.00.

MODEL #AL-4X4 GOLDEN EDGE $126.00

Beretta U.S.A.

BERETTA began making guns in Italy almost 500 years ago. In 1983 they set their sights on a knife line. Since then their expertise in the firearms field has been matched by a high caliber knife series. Just last year Beretta added the International Guide knives which are made by Moki of Japan. The pleasure of owning a Beretta sidearm goes hand in hand with the look, feel, and quality of these fixed blade beauties. You can choose from handle materials of black linen micarta (shown in photo) or cocobolo wood scales. Each model is available in plain edge only and comes with a sturdy leather sheath.

2 1/8" Sheepsfoot blade.
Suggested retail $72.00.
MODEL #BR-4 GOLDEN EDGE $64.80

Blade Steel	440C	Weight	3.6 oz.
Overall Length	6 5/8"	Handle	Micarta or Cocobolo
Edge Length	2 1/8"	Sheath	Leather

Blade Thickness	5/32"	Made In	Japan

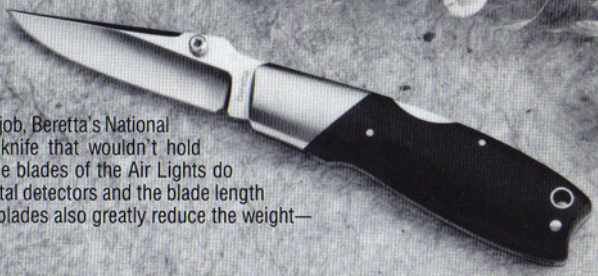
Beretta U.S.A.

The fifth in the series of International Guide knives is this 2 5/8″ folder. The thumb stud provides quick, one-handed opening. Plain edge only. Suggested retail $98.00.

MODEL #BR-5 GOLDEN EDGE $88.20

Blade Steel	440C	Weight	3.7 oz.
Overall Length	6 7/8″	Handle	Micarta or Cocobolo
Edge Length	2 5/8″	Sheath	Leather
Blade Thickness	1/8″	Made In	Japan



AIR LIGHTS Because traveling is part of the job, Beretta's National Sales Manager, Gary Fadden, wanted a knife that wouldn't hold him up at the airports. The holes cut in the blades of the Air Lights do the trick. These knives don't set off the metal detectors and the blade length is legal in most airports. The skeletonized blades also greatly reduce the weight—Air Lights tip the scales at 2.5 oz. Suggested retail $60.00.

GOLDEN EDGE $54.00

MODEL #BR-S (Serrated edge)

MODEL #BR-PS (Combination plain edge/serrated edge)

MODEL #BR-P (Plain Edge)

Blade Steel	440C	Weight	2.5 oz.
Overall Length	8 3/4″	Handle	Zytel
Edge Length	3 3/8″	Sheath	
Blade Thickness	1/8″	Made In	Japan

VICTORINOX The Original Swiss Army Knife—Copied But Never Equalled

The Victorinox Swiss Army brand is recognized worldwide. New models and accessories are continually added to their line to ensure that there is a model to satisfy every individual taste and need. Though we at Golden Edge Cutlery carry a relatively modest sampling of the vast Swiss Army collection, we are proud to offer Victorinox's five most popular models.

CLASSIC 2 1/2″in length.

OUTDOOR EDGE These award-winning knives give hunters and guides a design with features that have never before been offered in a conventional knife. Cutting with these skinners is a natural motion because the wrist stays straight and the forearm relaxed. Conventional knives bend the wrist causing fatigue and uncomfortable cutting positions. There's more to the handle than meets the eye. The T-shaped handle transfers force directly, providing greater cutting power for quartering. The unique shape of the handle also allows it to be secured between two fingers, enabling both hands to be used without setting the knife down. Lastly, the rubberized Kraton® handle eliminates any chance of the knife slipping. Each knife comes with a leather sheath.

WHITETAIL SKINNER Ideal for deer, fur bearers, and caping. The Whitetail Skinner features a deep bellied blade with a skinning hook for easy field dressing.
Suggested retail $44.95.
MODEL #OE-WS GOLDEN EDGE $40.40

GAME CAPER This model features a drop point utility blade for a variety of field applications. The blade combines a forward plain edge with serrations near the base of the blade.
Suggested retail $43.20.
MODEL #OE-GC GOLDEN EDGE $38.80

GAME SKINNER Voted Blade magazine's Imported Design of the Year for 1988, this skinner has proven itself on deer, elk, moose, and African game. It has a 3 inch Alaskan ulu shaped blade and a wide skinning hook. Suggested retail $59.95.
MODEL #OE-GS GOLDEN EDGE $53.90

SOLO

SOLO The original goal in designing the Solo was to incorporate a production folding knife with a leaf-spring lock in hopes that the final product could, in time, become a classic. The leaf spring lock, directly influenced by Michael Walker and Robert Terzuola, is ideal in design because it is a positive lock and therefore ensures that it cannot close on the user's hand. Yet, because of the Solo's design, even the slightest pressure on the lock enables closure. Looking at the final product, one can see that the designer succeded in his original goal, while not giving up any style or distinction that a classic deserves.

Known as the ''Gentlemen's Knife'' this model is not only beautiful, it is purely functional. The sleek ¼" thin design makes it comfortable to carry in a vest or suit pocket. The handle, made of black paper micarta, is designed to fit the hand. While its defined finger pads add extra control and comfort. The unique lobe opener and leaf-spring lock allow for easy opening and closing with one hand. This knife is sure to please even the most discriminating person. Available in PlainEdge or combination PlainEdge/SpyderEdge. Suggested retail $82.95.

MODEL #SO-1 GOLDEN EDGE $74.95

Blade Steel.....G2	Weight .....1.2 oz.
Overall Length ..5 7/8"	Handle ....Black Micarta
Edge Length....2 3/8"	Sheath ..Synthetic Suede
Blade Thickness .1/16"	Made In.....Japan

Introduced in May of 1993, the Solo II was designed for those wanting the same quality found in the original Solo, with almost an inch more cutting power. Perfect for those with larger hands. Available in PlainEdge or SpyderEdge. Suggested retail $95.95.

MODEL #SO-2 GOLDEN EDGE $85.95

Blade Steel.....G2	Weight .....1.9 oz.
Overall Length ..7 5/8"	Handle ....Black Micarta
Edge Length....3 1/8"	Sheath ..Synthetic Suede
Blade Thickness .1/16"	Made In.....Japan

GRYPHON KNIVES

The **GRYPHON** knives may be produced by a competitor of ours, but that doesn't keep us from recognizing top quality cutlery when we see it. Master knifemaker Robert Terzuola designed the Gryphon knives for Jeff Loffer of the Cutlery Shoppe. No short cuts were taken in producing these knives—they're built to last.

The **M35** Combat Utility is produced in true Gryphon style, yet designed to be more affordable. The 7½" blade is constructed of 8A stainless steel. The notched thumb rest on the blade along with the checkered Kraton handle allows a firm grip. Suggested retail $100.00.
MODEL #GY-35 GOLDEN EDGE $85.00

Blade Steel	8A
Overall Length	13 1/4"
Edge Length	7 1/2"
Blade Thickness	3/16"
Weight	11.9 oz.
Handle	Kraton
Sheath	Cordura
Made In	Japan

The **M10** is the ultimate in boot knives and is built to withstand any punishment you put it through. The 4" blade is crafted from ATS-34 stainless steel and measures a 58-59 on the Rockwell scale. The nearly indestructible handle is made from checkered Zytel. Features a notched thumb rest on back of blade, lanyard hole, cordura sheath, and also comes with a low profile shoulder harness.
Suggested retail $150.00.
MODEL #GY-10
GOLDEN EDGE $135.00

Blade Steel	ATS-34	Weight	4.5 oz.
Overall Length	8 1/2"	Handle	Zytel
Edge Length	4"	Sheath	Cordura
Blade Thickness	3/16"	Made In	Japan

SPYDERCO CUSTOMS

CENTOFANTE CLIPIT Frank Centofante of Madisonville, TN, has been a member of the Custom Knifemaker's Guild since 1971 and has been making knives for 25 years. The Centofante CLIPIT™ is his first production collaboration and this beauty boasts the traditional Centofante blade shape for which he is famous. The steep drop point gives a sleek look as well as being functional. The handle is 6061-T6 anodized aluminum for weight reduction and strength with stylish filework on the spine. The 2 7/8" blade is flat ground from ATS-34 stainless steel and incorporates a leaf spring lock.

The Spyderco pocket clip appears on the right scale and a rubberized insert on the left scale. There are two color schemes to choose from—light blue anodizing with dark blue rubberized inlay, or gray anodizing with green rubberized inlay. Available in PlainEdge or SpyderEdge.
Suggested retail $124.95. **MODEL #C25 GOLDEN EDGE $111.95**

Blade Steel	ATS-34	Weight	2.5 oz.
Overall Length	6 7/8"	Handle	6061-T6 Aluminum
Edge Length	2 7/8"	Sheath	
Blade Thickness	3/32"	Made In	U.S.A.

GOLDEN EDGE COTICULES

NATURAL SHARPENING STONES YESTERDAY'S BEST MAY BE TODAY'S AS WELL

Hundreds of millions of years ago, when the earth was forming and changing, there were some areas that formed with unusual chemical developments. Examples of this are the large deposits of diamonds that ended up in South Africa and the oil deposits in the Middle East. The deposits of Novaculite and Coticule were of special interest to cutlers. Speculation as to how these substances formed range from meteoric occurances to chemical reactions, but no one is really certain. Novaculite is a combination of silica and quartz highly compressed or fused into a very dense, hard, sedimentary rock. It is found only in a region of the southern United States and is known as the "Arkansas Stone." Coticule is a similar dense rock that is made up of compressed garnets. It is found only in the northern region of Belgium. This unique creation of nature is known as the "Belgian Razor Stone." Geological surveys estimate a known supply of over 200 years for the Arkansas mines and about 50 years from the Coticule mines. Many professionals believe that the finest edge can only be obtained by hand sharpening on natural stones. Golden Edge is pleased to be able to provide the finest medical grade Coticule and Novaculite in the world today. A "must own" for today's cutlery lover.

MODEL #CC-BB
GOLDEN EDGE $4.50

SMITH NATURAL ARKANSAS STONES: (Novaculite) The Smith family, of Hot Springs National Park, AR, has been in the natural Whetstone business since 1886. The stone used by Smith's is high grade Novaculite (from the Latin word Novacula, meaning "sharp knife"). The only place in the world Novaculite is found is within a 15 mile radius of Hot Springs. Indians in the 18th and 19th centuries came to Hot Springs from all over the country to acquire this valuable stone. Each stone is hand crafted and passes 8 quality inspections before being shipped out. Oil should be used with these stones to wash away small particles of metal.

This **TRUE CUT** stone measures 8"× 2"× 1/2". Black Arkansas is an extra fine grit leaving a mirror polish and an edge legends are made of. Comes in a cedar box with angle guide and instructions. Both sides can be used for sharpening. Suggested retail $63.94.
MODEL #SM-XTC GOLDEN EDGE $57.50

These **WIDE HONES** are a full 2 1/2" wide. Ideal for wide planer blades, chisels and woodworking tools. Stone is 8" long and 1/2" thick and is securely mounted to a cedar block so only one side may be used. Base has holes for mounting to a workbench. A cedar lid is included along with angle guide and instructions.

MEDIUM grit (soft Arkansas)
Suggested retail $33.46.
MODEL #SM-MW GOLDEN EDGE $30.10

FINE grit (hard Arkansas)
Suggested retail $50.46.
MODEL #SM-FW GOLDEN EDGE $45.40

HONING OIL is a highly refined, premium mineral oil (not a petroleum base). Excellent lubricating properties—a little goes a long way. Suggested retail $2.70.
MODEL #SM-OIL GOLDEN EDGE $2.40

MULTI-HONE includes four 8"× 1 5/8" × 1/2" stones:
FINE—(white) Natural Arkansas for final finish and polish
MEDIUM—(grayish) Natural Arkansas for general purpose sharpening
COARSE—(dark gray) Silicon Carbide for fast cutting action
FINE—(orange) Aluminum Oxide for smooth cutting edge

Multli-Hone also features built-in angle guides for each stone and plastic base acts as an oil bath for easy lubrication. The stones are secured by a unique locking device which allows optional stones to be added. Non-skid feet are attached to the base and a plastic cover snaps over top for storage. Honing oil sold separately. Suggested retail $60.00.
MODEL #SM-4 GOLDEN EDGE $54.00

◀ **GOLDEN EDGE COTICULES:** (Belgian Razor Stones) Mining experts bond the Coticule to another rare stone, which is a by-product of the quarry. This dark colored stone is called "Rouge-de-la-salm" and is generally not used for sharpening (although it can be) but rather, is used to support the razor stone. Belgian Razor Stones come only in professional medical grade and are used with oil or water. The use of water being a convenient advantage. The cut-offs from shaping these rectangles are called Bouts-Belges. Bouts-Belges are an ideal pocket size and give you an opportunity to own a piece of soon to be extinct sharpening stone!

Spyderco, Inc.

Spyderco's Tri-Angle Sharpmaker gives you professional results in a matter of minutes and is easy to use. The simple set of instructions show you how to sharpen:

- kitchen knives
- serrated knives
- scissors
- pinking shears
- fish hooks
- darts
- router bits
- wire cutters
- nail clippers
- potato peelers
- screwdrivers
- and more

TRI-ANGLE SHARPMAKER Includes ABS plastic base, 2 brass safety guards, instruction manual, cordura carrying case, 2 fine grit triangle stones, and 2 medium grit triangle stones. The stones are made of High Alumina Ceramic and require no oil or water. The durable, nylon cordura case has internal sleeves to prevent stones from being chipped. Base holds stones at a 40° angle. Suggested retail $49.95.
MODEL #203MFC GOLDEN EDGE $44.95

DELUXE TRI-ANGLE SHARPMAKER Same as regular Tri-Angle Sharpmaker, plus 2 diamond coated speed sleeves. Suggested retail $79.95.
MODEL #203DX GOLDEN EDGE $71.95

DIAMOND SPEED SLEEVES These coarse sleeves slide over Tri-Angle stones. Great for sharpening out small nicks or shaping up a dull edge quickly. Sleeves should be used with water to prevent premature wear. Not for use with serrated edge knives. Suggested retail $36.95.
MODEL #203DS GOLDEN EDGE $32.95

CORDURA CASE Sturdy nylon pouch with velcro closure and internal sleeves.
Suggested retail $8.95.
MODEL #203C GOLDEN EDGE $7.95

▲ **GALLEY-V** Formerly called the Pro''V'', this larger sharpener is great for commercial applications such as restaurants, food processing, meat packing, etc. Great for serrated edge knives. Includes ABS base with holes to secure sharpener to a flat surface, 2 fine grit cat's eye stones, and instructions. Base holds stones at a 30° angle.
Suggested retail $49.95. **MODEL #601V GOLDEN EDGE $44.90**

GALLEY-V REPLACEMENT STONES. Fine grit only.
Suggested retail $19.95.
MODEL #601F GOLDEN EDGE $17.90

TRI-ANGLE REPLACEMENT STONES
Specify fine or medium grit. Suggested retail $10.95.
MODEL #2031 GOLDEN EDGE $9.95

Ceramics cannot be guaranteed against breakage.

#1 RECOMMENDED SHARPENER FOR SERRATED EDGE KNIVES!

CERAMIC WHETSTONES Each stone is constructed of "High Alumina Ceramic." The Alumina particles (synthetic sapphires) are mixed with a ceramic bonding agent. The stones are shaped, compressed at high pressures and then fired in kilns in excess of 3,000° F for as long as three days. The finished product is able to cut any metal known to man and has very desirable qualities: they are so hard that very little or no wear will be experienced; because these stones are used dry there is no water or oil to clean up; and finally, they leave a very high polish on the surface being sharpened.

The Benchstones measure 2"× 8"× ½" and come in a plastic case with rubberized feet to prevent sliding during use.

ULTRA FINE GRIT
Suggested retail $44.95.
MODEL #302UF GOLDEN EDGE $39.95

MEDIUM GRIT
Suggested retail $26.95.
MODEL #302M GOLDEN EDGE $23.95

1 Slip 1/2"× 5" × 1/4" ($11.95)
1 Round 1/4" dia. × 5" ($6.95)
Suggested retail $32.80.
MODEL #400F GOLDEN EDGE $29.95

GATCO

GREAT AMERICAN TOOL COMPANY located in Getzville, NY has been perfecting sharpeners for 5 years. The GATCO Edgemate knife sharpening system is not only the most popular system they make but one of the easiest of its kind to use.

The GATCO EDGEMATE KNIFE SHARPENING SYSTEM
contains: coarse medium, and fine honing stones with integral sliding guide rod; knife holder and angle guidance fixture; honing oil; carrying case and instructions. Five sharpening angles range from 11° to 25°. Screws can be turned by hand—no coins or screwdrivers needed. Hones are 5″x3/4″ and made of aluminum oxide. Suggested retail $38.99. **MODEL #GC-3 GOLDEN EDGE $31.50**

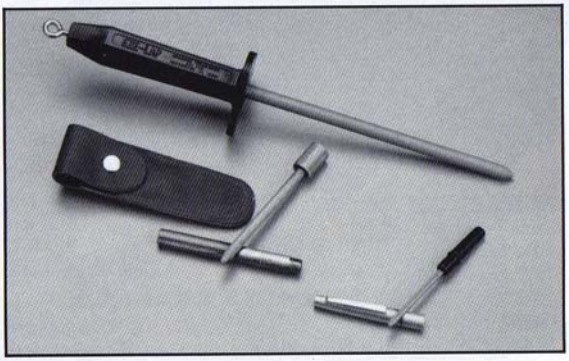
EZE-LAP

EZE-LAP in Westminster, CA, pioneered diamond sharpeners in the early 70's. Their diamond bonding process has been imitated, but never truly duplicated. Eze-Lap has patented the heat treating process that bonds the industrial diamonds (DuPont Poly-crystalline) to a flat metal substrate. The resulting surface measures 72 on the Rockwell C hardness scale.

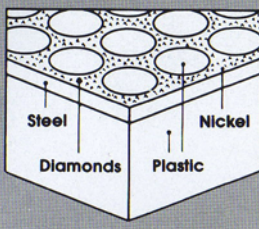
The legendary **MODEL "M"** is the original diamond sharpener developed by Jay Fletcher almost 20 years ago. It is the hallmark of the Eze-Lap line. The rugged brass handle acts as a handle as well as a sleeve to protect the 3 1/2″ diamond coated shaft. 1/4″ in diameter. Leather sheath provided.
MODEL #EL-M GOLDEN EDGE $19.95

THE DIAMOND PEN SHARPENER is ideal for serious fishermen. Its 2 3/16″ sharpening surface has an 1/8″ flat side, a groove for fish hooks on the other side, and weighs in at only a 1/2 ounce. Stores inside the pen cap and clips into your pocket like a ballpoint pen.
MODEL #EL-S GOLDEN EDGE $5.95

This **DIAMOND ROUND** is unbeatable in keeping your kitchen knives in top shape. The fine diamond shaft actually sharpens, whereas most ''steels'' just straighten out the edge. Shaft is 7 1/2″x 7/16″ with a plastic handle. **MODEL #EL-G GOLDEN EDGE $28.95**



DMT

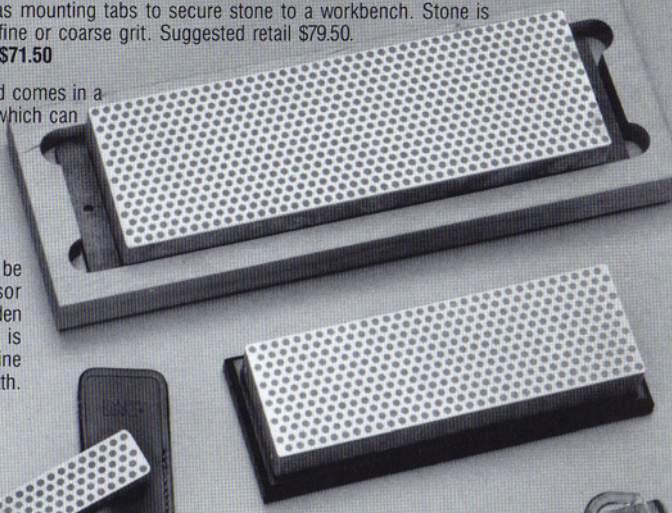


DIAMOND MACHINING TECHNOLOGY, INC. was founded in 1976 for the purpose of producing industrial diamond tools, such as saw blades and grinding wheels. After developing and refining some diamond hones from the leftover centers of grinding wheels, the Diamond Whetstone line took over.

DMT's unique whetstone construction consists of a strong plastic base, which is injection molded with a specially perforated steel face. Nickel is then electroplated onto the steel with micron diamonds partially embedded in the nickel. The plating causes the polka-dots to be recessed, which not only aids in removing steel, but acts as a reservoir—trapping the steel removed from knife or tool edge.

The **8" BENCHSTONE** offers large surfaces of diamond for larger knives and tools. Comes in a redwood case with non-skid feet. Also has mounting tabs to secure stone to a workbench. Stone is 2 5/8" wide and is available in fine or coarse grit. Suggested retail $79.50.
MODEL #DM-8 GOLDEN EDGE $71.50

6" BENCHSTONE is 2" wide and comes in a plastic case with non-skid feet which can be mounted to a work bench. Available in fine and coarse grit. Suggested retail $45.50.
MODEL #DM-6
GOLDEN EDGE $40.90

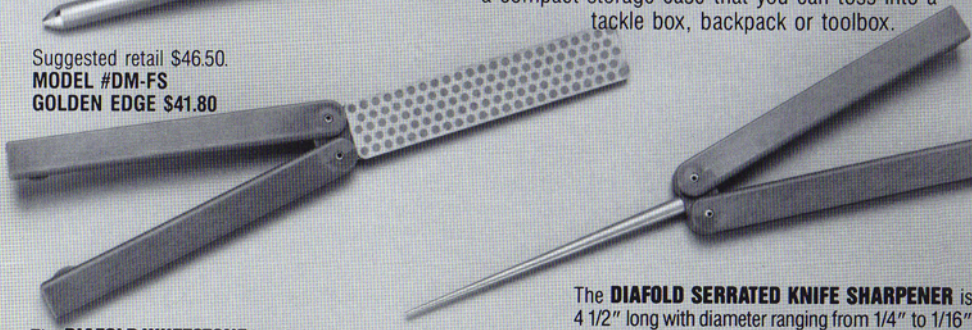


This versatile **POCKET STONE** can be used on knives, food processor blades, hand tools, router bits, garden tools, great for skiis...the list is endless! Stone is 3" × 7/8" and fine grit only. Comes with a leather sheath. Suggested retail $18.00.
MODEL #DM-F3
GOLDEN EDGE $16.20

Fine grit **10"**
DIAMOND STEEL
is a dual acting sharpener that both removes steel to maintain sharpness and realigns bent edges. Shaft is 3/8" in diameter and has a plastic handle.

The DIAFOLD™ models are housed in a self-storing fold away handle that remains permanently attached. The folded handles create a compact storage case that you can toss into a tackle box, backpack or toolbox.

Suggested retail $46.50.
MODEL #DM-FS
GOLDEN EDGE $41.80



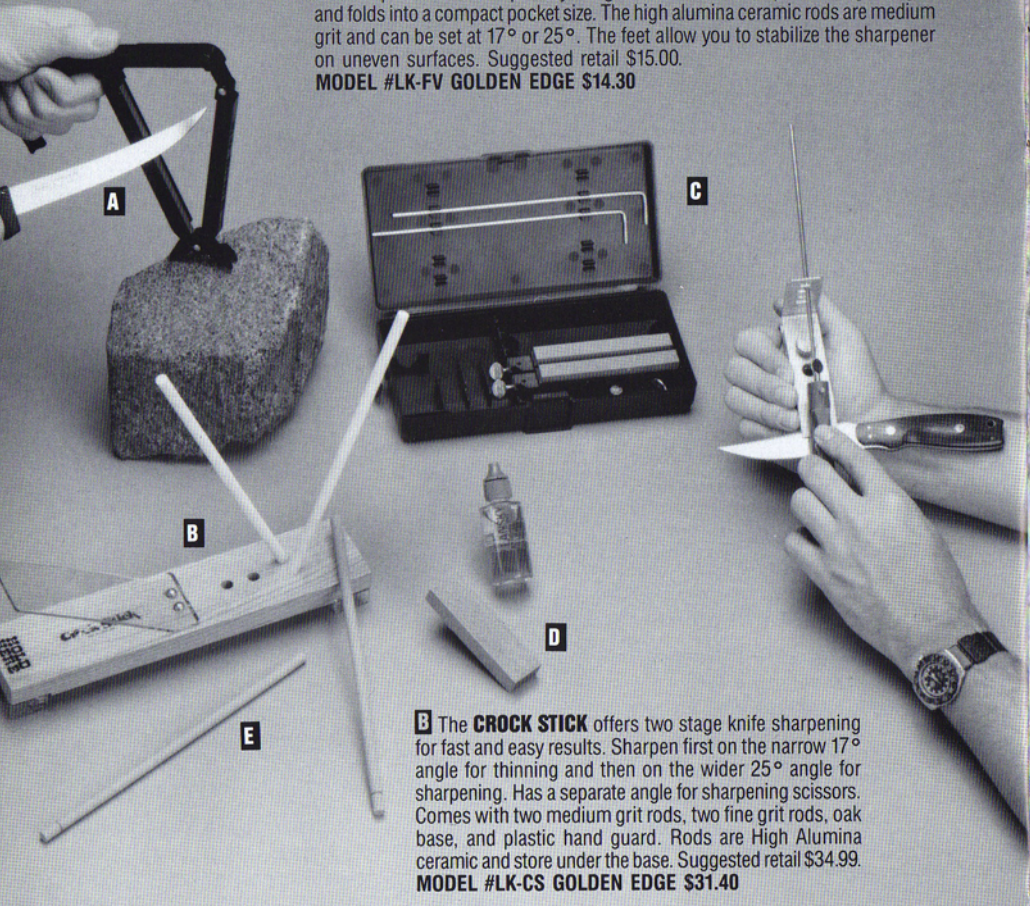
The **DIAFOLD WHETSTONE** is 4 3/8" × 7/8" and fine grit only. Suggested retail $24.50. **MODEL #DM-FD GOLDEN EDGE $22.00**

The **DIAFOLD SERRATED KNIFE SHARPENER** is 4 1/2" long with diameter ranging from 1/4" to 1/16". Suggested retail $25.00.
MODEL #DM-FDS GOLDEN EDGE $22.50

LANSKY SHARPENERS

LANSKY SHARPENERS began twelve years ago in Buffalo, NY. They began with the standard three hone system and now have a wide selection of sharpening systems to choose from. Golden Edge Cutlery is pleased to provide you with three of their more popular systems.

A The **FOLD-A-VEE SHARPENER** is perfect for hunters, fishermen, backpackers, and campers since it is especially designed for field use. It is portable, lightweight, and folds into a compact pocket size. The high alumina ceramic rods are medium grit and can be set at 17° or 25°. The feet allow you to stabilize the sharpener on uneven surfaces. Suggested retail $15.00.
MODEL #LK-FV GOLDEN EDGE $14.30



B The **CROCK STICK** offers two stage knife sharpening for fast and easy results. Sharpen first on the narrow 17° angle for thinning and then on the wider 25° angle for sharpening. Has a separate angle for sharpening scissors. Comes with two medium grit rods, two fine grit rods, oak base, and plastic hand guard. Rods are High Alumina ceramic and store under the base. Suggested retail $34.99.
MODEL #LK-CS GOLDEN EDGE $31.40

C The **STANDARD LANSKY SHARPENING KIT** contains: coarse, medium, and fine hones; knife clamp with angle selector, three guide rods; honing oil; carrying case; extra screws and instruction guide. Select four sharpening angles from 17° to 30°. Hones are 4″ × 1/2″ and made of aluminum oxide. Suggested retail $34.99.
MODEL #LK-3 GOLDEN EDGE $31.50

D The **ERASERBLOCK** works great for rubbing away the metal deposits left on your ceramic sharpening stones. Works equally well on porcelain sinks, tile floors, tile grout, formica and marble counters, glass, auto chrome, fiberglass boats…and more! For stubborn spots or discolorations, just wet spot or Eraserblock with water. Suggested retail $4.99. **MODEL #LK-EB GOLDEN EDGE $4.40**

E **CROCK STICK REPLACEMENT STONES** Specify fine or medium grit. Suggested retail $6.95.
MODEL #LK-R GOLDEN EDGE $6.20

G•SAKAI

More than 750 years ago, the swordsmiths of Japan became attracted to and settled in a small town, called Seki City, in the Gifu mountains. The location possessed iron-laden soil and abundant water. The mountains provided constant breezes and mild temperatures. As the centuries passed, countless sword makers developed their art within the confines of this town. The Katana (Japanese sword) remains a legend today.

Seki City is also the home of G. Sakai, world renowned for the quality craftsmanship of its hand-made knives. While maintaining the spirit of these sword makers, G. Sakai collaborates with some of the best knife designers in the world. Performing magic in steel and modern materials brings their designs to life. Considering strength, performance, fit and finish, G. Sakai consistently produces the best knives in the world. The spirit of the Samurai comes alive when using knives hand-made by G. Sakai.

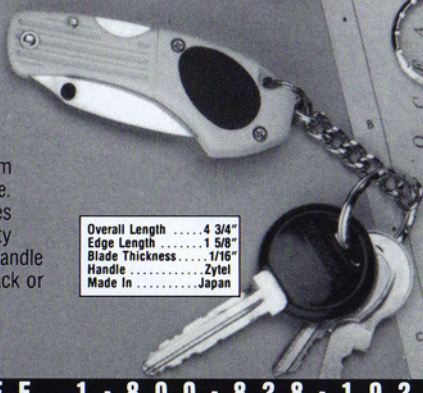
Blades	Ceramic
Overall Length	4 1/4"
Handle	Zytel
Sheath	Leather
Made In	Japan

CERAMIC SCISSORS Razor sharp ceramic blades may never need sharpening! The best part about these scissors is that there are no metal parts, which means no corroding or rusting. Great for use in salt water environments—cutting leader lines, etc. Perfect for clipping articles, pictures or coupons, as the paper will never dull them. The handles are made from Zytel. Comes with a leather sheath. Suggested retail $52.95.

MODEL #GS-SCI GOLDEN EDGE $47.95

HOTARU (Japanese for firefly) Now this really is the ultimate in key chains. G Sakai's latest design will definitely strike your fancy. How many times have you scratched your paint trying to hastily unlock your car door in a pitch black parking lot? This keychain lights the way with a fine focus red beam and the single cell battery is easily replaceable. But wait, it's not just a keychain...it also includes a $1\frac{5}{8}$" pocket knife made with the same quality craftsmanship as other G. Sakai knives. The handle is made from Zytel and available in either black or yellow. Suggested retail $29.95.

MODEL #GS-HOT GOLDEN EDGE $26.95



Overall Length	4 3/4"
Edge Length	1 5/8"
Blade Thickness	1/16"
Handle	Zytel
Made In	Japan

G•SAKAI

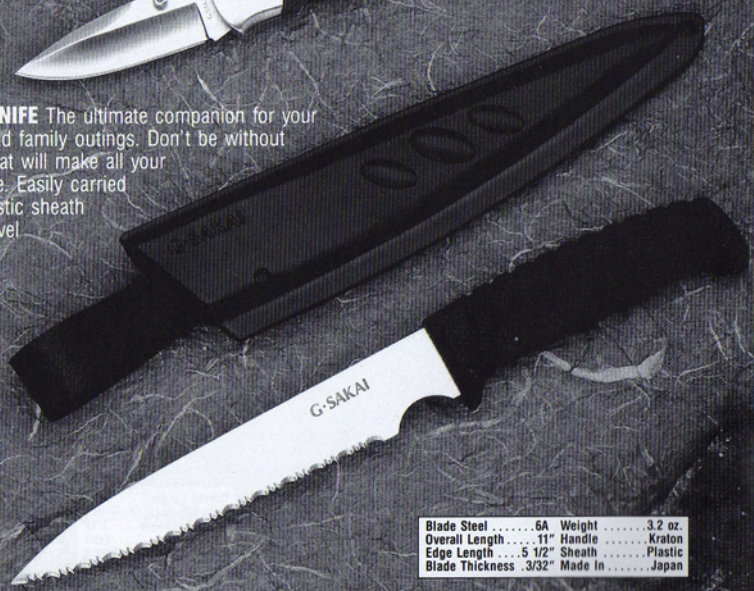
INTREPID This knife is exceptionally stout and rugged, providing pure cutting power. The feeling of absolute control is yours when you grip the thick Kraton scales. The checkered pattern in the Kraton adds to the gripping power. No chance of this blade slipping away! The thumb-stud provides easy one-handed opening and can be switched to the other side of the blade for left-handers. (Phillips head screw holds in place.) Another model is available with thumb nail notch for opening.

Blade Steel	6A	Weight	4.7 oz.
Overall Length	7"	Handle	Kraton
Edge Length	2 3/4"	Sheath	Nylon
Blade Thickness	1/8"	Made In	Japan

MODEL #GS-INT (thumb-stud) is available in either plain edge or serrated edge. Suggested retail $85.95. **GOLDEN EDGE $76.95**

MODEL #GS-IN (thumb-nail notch) is available in either 40/60 plain edge/serrated edge combination or fully serrated. Suggested retail $81.95. **GOLDEN EDGE $73.95**

OUTDOOR COOKING KNIFE The ultimate companion for your picnics, camp trips, and family outings. Don't be without this 11" camp knife that will make all your cutting chores a breeze. Easily carried in a backpack, the plastic sheath also comes with a swivel belt loop so you can carry it with you. Available in serrated edge only and with black handle. Suggested retail $35.95. **MODEL #GS-ODS GOLDEN EDGE $31.95**



Blade Steel	6A	Weight	3.2 oz.
Overall Length	11"	Handle	Kraton
Edge Length	5 1/2"	Sheath	Plastic
Blade Thickness	.3/32"	Made In	Japan

G•SAKAI

BIRD & TROUT The distinguished lines of these bird and trout models are the design of Mr. Masao Takahashi, a full-time custom knifemaker and member of the Japanese Knifemaker's Guild. Through much time and effort, he has developed his art to a high degree. He shows delicate imagination by combining highly functional designs with artistically flowing lines. These serve not only as great field knives but also as attractive gentleman's knives. Plain edge only.

Suggested retail $119.95
MODEL #GS-TA3 GOLDEN EDGE $107.95

Blade Steel	6A	Weight	4.4 oz.
Overall Length	9 1/4"	Handle	Black Micarta
Edge Length	3 1/4"	Sheath	Nylon webbing
Blade Thickness	5/32"	Made In	Japan

Suggested retail $106.95
MODEL #GS-TA2
GOLDEN EDGE $95.95

Blade Steel	6A	Weight	2.9 oz.
Overall Length	7 1/8"	Handle	Black Micarta
Edge Length	2 1/4"	Sheath	Nylon webbing
Blade Thickness	1/8"	Made In	Japan

Suggested retail $91.95
MODEL #GS-TA1
GOLDEN EDGE $82.95

Blade Steel	6A	Weight	1.6 oz.
Overall Length	6 1/4"	Handle	Black Micarta
Edge Length	2 3/8"	Sheath	Nylon webbing
Blade Thickness	1/8"	Made In	Japan

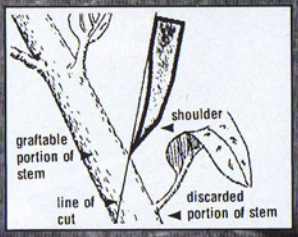
WICKY Another excellent bird and trout knife, this one of the fixed blade variety. The long handle accommodates even the largest hand and, of course, being made of Kraton, its non-slip grip assures control. Finger choil and notched thumb rest also aid in control. The blade is crafted from ATS-34 stainless steel. Although this steel is expensive to work with, it is considered state of the art in providing low maintenance and superior edge holding capabilities. A hand crafted black leather sheath is provided. Plain edge only.
Suggested retail $63.95
MODEL #GS-WKY GOLDEN EDGE $57.95

Blade Steel	ATS-34	Weight	1.1 oz.
Overall Length	7"	Handle	Kraton
Edge Length	2 1/2"	Sheath	Leather
Blade Thickness	3/32"	Made In	Japan

G•SAKAI

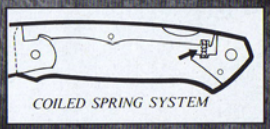
KATABA Perhaps the best folding knife available for the gardening arts. The unique kataba grind uses a single-bevel blade grind on the front side and a hollow grind on the back. (Similar to a sushi knife.) The resulting edge is strong, sharp and ideal for pruning and grafting. The concave (hollow grind) side of thel blade is held adjacent to the part of the plant to be used. Being constructed of stainless steel handle, blade, and leaf-spring lock means low maintenance.
Suggested retail $54.95.
MODEL #GS-KAT GOLDEN EDGE $48.95

Blade Steel	ATS-34	Weight	.3 oz.
Overall Length	5 7/8"	Handle	Stainless steel
Edge Length	1 7/8"	Sheath	Nylon webbing
Blade Thickness	1/8"	Made In	Japan



COILED SPRING HUNTER is one of many in a series of handcrafted knives. The handcrafted series was produced in commemoration of G. Sakai's 55th Anniversary. This truly classic drop point has been made even more unique by the use of a coiled spring locking system. This is the same lock used by many custom knifemakers. The blade is made from ATS-34 stainless steel and given a mirror finish. Available in plain edge only.
Suggested retail $207.95
MODEL #GS-CSH GOLDEN EDGE $187.10

Blade Steel	ATS-34	Weight	5.3 oz.
Overall Length	7 1/2"	Handle	Black Micarta
Edge Length	2 3/4"	Sheath	Leather
Blade Thickness	5/32"	Made In	Japan



COILED SPRING SYSTEM

DEER BOWIE The Deer Bowie is another beautiful piece in the hand-crafted series with its handle composed of rugged stag. Take this traditional clip point bowie along on your next outing for some serious cutting power or use it as a beautiful addition to your knife collection. A sharpening stone is included with thick leather sheath. Available in plain edge only.
Suggested retail $319.95.
MODEL #GS-DBP GOLDEN EDGE $287.95

Blade Steel	440-C	Weight	9.7 oz.
Overall Length	10 5/8"	Handle	Stag
Edge Length	5 3/8"	Sheath	Leather
Blade Thickness	1/4"	Made In	Japan

G·SAKAI

Suggested retail $48.95.
MODEL #GS-BP4 GOLDEN EDGE $43.95

Blade Steel	6A	Weight	3.7 oz.
Overall Length	6 3/4"	Handle	Zinc/Kraton
Edge Length	2 5/8"	Sheath	
Blade Thickness	1/8"	Made In	Japan

BACKPACKER If weight of gear is a concern on your outdoor adventures, then the G. Sakai Backpackers will surely fill the bill. The lightweight handle is composed of zinc. The Kraton® inlay is given a honey-comb texture for gripping power. Choose from two sizes and either a plain edge or serrated edge.

Suggested retail $44.95.
MODEL #GS-BP3 GOLDEN EDGE $39.95

Blade Steel	6A	Weight	2.5 oz.
Overall Length	5 7/8"	Handle	Zinc/Kraton
Edge Length	2 1/4"	Sheath	
Blade Thickness	3/32"	Made In	Japan

Suggested retail $123.95.
MODEL #GS-DB2 GOLDEN EDGE $111.50

Blade Steel	6A
Overall Length	11 3/4"
Edge Length	7"
Blade Thickness	1/8"
Weight	5.9 oz.
Handle	Wood Laminate
Sheath	Nylon
Made In	Japan

Suggested retail $105.95.
MODEL #GS-DB1 GOLDEN EDGE $95.30

Blade Steel	6A

MODEL #GS-SH2 GOLDEN EDGE $103.40

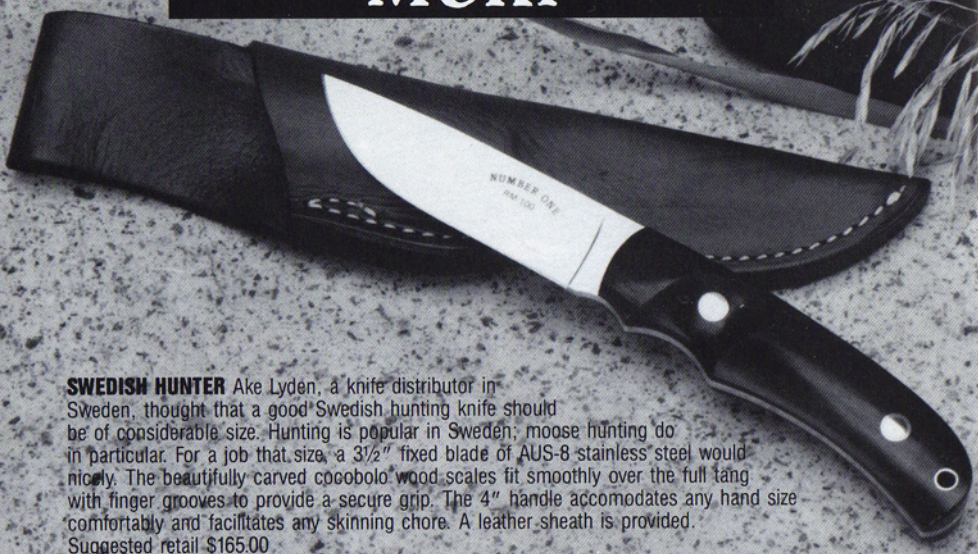
Blade Steel	6A
Overall Length	10 3/4"
Edge Length	6"
Blade Thickness	5/32"
Weight	10 oz.
Handle	Wood Laminate
Sheath	Nylon
Made In	Japan

DEBA & SASHIMI
For the discriminating chef who seems to have everything. Chances are, this chef hasn't yet had the pleasure of using these beautiful kitchen knives produced by G. Sakai. The larger handle gives complete control of all your cutting and slicing chores. The wide blade on the Sashimi keeps your knuckles from hitting the cutting board. Both the Deba and Sashimi are given the kataba grind which provides all the strength of a double bevel grind with a much thinner cutting edge. The kataba grind slices quickly and cleanly and forces the food to fall away from the knife. Two sizes available in each blade style.

Suggested retail $99.95.
MODEL #GS-SH1 GOLDEN EDGE $89.90

Blade Steel	6A	Weight	6.3 oz.
Overall Length	8 7/8"	Handle	Wood Laminate
Edge Length	4 1/8"	Sheath	Nylon
Blade Thickness	5/32"	Made In	Japan

MOKI

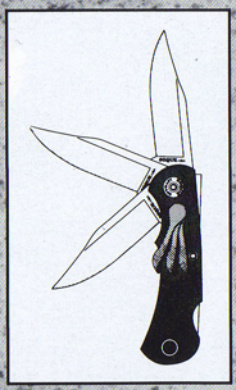


SWEDISH HUNTER Ake Lyden, a knife distributor in Sweden, thought that a good Swedish hunting knife should be of considerable size. Hunting is popular in Sweden; moose hunting do in particular. For a job that size, a 3½" fixed blade of AUS-8 stainless steel would nicely. The beautifully carved cocobolo wood scales fit smoothly over the full tang with finger grooves to provide a secure grip. The 4" handle accomodates any hand size comfortably and facilitates any skinning chore. A leather sheath is provided.
Suggested retail $165.00
MODEL #MK-SH GOLDEN EDGE $148.50

Blade Steel	AUS-8	Weight	5.7 oz.
Overall Length	8 1/4"	Handle	Cocobolo
Edge Length	3 1/2"	Sheath	Leather
Blade Thickness	.5/32"	Made In	Japan

LEV-R-LOK™

LEV-R-LOK The Lev-R-Lok by Soque River Knives has a truly unique opening mechanism. By pressing on the lever with your thumb, the blade snaps out and locks open with lightning speed. It's not spring loaded, nor is it a gravity knife. It is totally mechanical and safe to carry in the closed position. The internal mechanism is sealed against dirt and grit accumulation. The Lev-R-Lok is available in plain edge only and is made in the USA. Suggested retail $59.95
MODEL #SQ-LEV GOLDEN EDGE $56.95



Blade Steel	420SS	Weight	2.1 oz.
Overall Length	6 7/8"	Handle	Zytel
Edge Length	2 5/8"	Sheath	
Blade Thickness	.3/32"	Made In	U.S.A.

COLD STEEL

COLD STEEL is known for their durability and strength, but probably most recognized for the extreme torture testing they put their knives through. The re-introduction and popularity of the tanto, bowie, and kukri can be attributed to Cold Steel's Lynn Thompson, who has proved to be one of the industry's trend setters. In addition, Dan Maragni has greatly helped in Cold Steel's success with his eye for quality and materials innovation. The abilities of these two gentlemen have surely pushed Cold Steel to the forefront of the knife industry.

SRK (Survival/Rescue Knife) Survival and rescue operations demand a versitile knife with the ability to endure severe abuse. With this in mind, Cold Steel designed the SRK. This 3/16" thick clip point blade is tremendously strong yet possesses a fine enough tip for meticulous cutting jobs.
Suggested retail $69.95.
MODEL #CS-SRK
GOLDEN EDGE
$62.90

Blade Steel	400 Series
Overall Length	11 3/8"
Edge Length	5 1/4"
Blade Thickness	.3/16"
Weight	9.5 oz.
Handle	Kraton
Sheath	Leather
Made In	Japan

messer KLOTZLI The name Klotzli has been known for quality cutlery in Switzerland for over 100 years. In 1846 Ernst Ulrich Klotzli founded this knife company in Burgdorf, Switzerland (home of the famous Swiss Cheese). In 1891 Ulrich Ernst Klotzli (2nd generation knifemaker) together with the founder of Victorinox, Carl Elsener, founded the Swiss Cutler Association, which is still active today. Now, five generations later, H.P. Klotzli carries on the family tradition with products that represent 147 years of expertise and knowledge in the knifemaking industry. Today's production is approximately 15,000 knives a year. These include wood carving, hunting, collector, boot and cheese knives. Each blade is hollow ground by hand and individually numbered. Handles are fit and finished by hand as well.

SOG

SOG Specialty Knives brought forward the theme of innovations: the introduction of new ideas. This is the primary theme that has made SOG a name that you can rely on and trust. SOG is also known as the producer of world class blades. They are dedicated to bringing you the highest standards of production cutlery in the world. By combining traditional handcraftsmanship with the strongest steels, finest materials and newest manufacturing techniques they are able to produce the utmost in durability and razor sharpness. Professionals, outdoorsmen, hunters, servicemen or anyone who appreciates cutlery at its finest, must see for themselves—SOG is excellence!

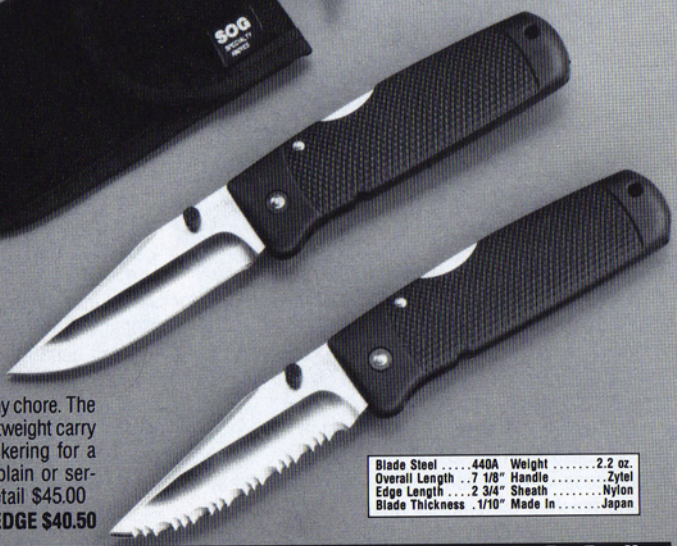
Weight	7 oz.	Sheath	Plastic W/Belt Clip

AIR-SOG
This multi-purpose, lightweight, fast opening knife makes it one of SOG's most popular. It is small enough to be discreetly carried, yet large enough to be used for just about any chore. The Zytel handle allows for lightweight carry and unique variable checkering for a secure grip. Available in plain or serrated edge. Suggested retail $45.00
MODEL #SG-A GOLDEN EDGE $40.50



Blade Steel	440A	Weight	2.2 oz.
Overall Length	7 1/8"	Handle	Zytel
Edge Length	2 3/4"	Sheath	Nylon
Blade Thickness	.1/10"	Made In	Japan

SOG

MICRO TOOLCLIP This unique micro tool is a miniature version of its big brother, the ToolClip. The Micro ToolClip accommodates a wire cutter, pliers, pry bar, and a serrated and drop point blade. Its clever clip design offers a variety of carrying options. The steel reinforced Zytel handle provides lightweight carry and remarkable durability. Available in black or red.
Suggested retail $49.95.
MODEL #SG-MT
GOLDEN EDGE $44.90

Blade Steel	440	Weight	3 oz.
Tool Length	3 7/8"	Handle	Zytel
Serrated Blade	1 3/4"	Sheath	
Plain Blade	1 7/8"	Made In	Japan

PENTAGON Originally designed as a back up for law enforcement, the Pentagon is one of the first multi-purpose double edged knives of its kind. Its 5″ stainless steel blade provides the unique option of a serrated edge on one side and a plain edge on the other. With the soft rubber Kraton handle and dual thumb grooves, you are able to maintain a secure grip. Housed in a black leather scabbard, which uses a heavy duty subdued clip for a variety of mountings.
Suggested retail $89.95
MODEL #SG-PEN
GOLDEN EDGE $80.90

Blade Steel	440A	Weight	5.9 oz.
Overall Length	9 5/8"	Handle	Kraton
Edge Length	3 7/8"	Sheath	Leather/w clip
Blade Thickness	.5/32"	Made In	Japan

"As long as Golden Edge Cutlery continues to offer the same products as I have come to appreciate and the same willingness to provide great customer service, I will indeed continue to be a Golden Edge Cutlery customer. Thank you very much!"
—Michael L. Fort, Tacoma, WA

TIMBERLINE

TIMBERLINE In 1990 Vaughn Neeley invented one of the most novel and noteworthy locking systems for a knife. It soon became known as the NeeleyLock™ and is now the cornerstone of Timberlite knives. This innovative design allows its user to open and close the knife with no levers or locks to push in the handle area. The lock is released by moving the *blade* outward by either pulling or pushing forward with the thumb buttons. An advantage of this locking system is that while pressing the tip of the knife into an object, the lock is actually driven tighter. Made entirely in the U.S.A., they are knives you can be proud to carry for more than just their convenience and quality.

THE TIMBERLITE Voted Blade magazine's "Overall Knife of the Year" for 1991. These lightweight, nylon handled knives are a unique addition to any pocket. Available in black with black button or olive-green with black button. The olive-green model has a subdued finish on the blade.
Suggested retail $34.95.
MODEL #TL-101 GOLDEN EDGE $31.40

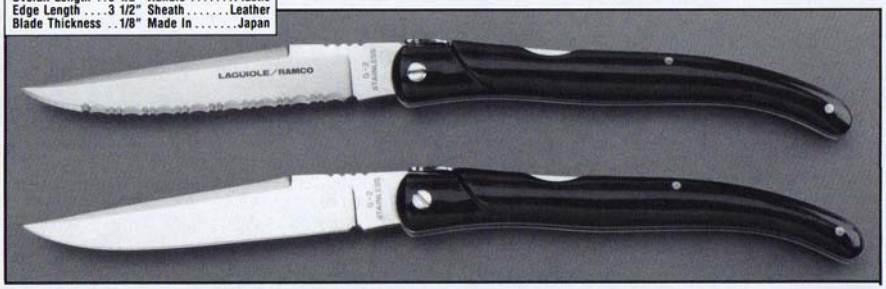
Blade Steel	425	Weight	2 oz.
Overall Length	6 3/4"	Handle	Zytel
Edge Length	2 3/8 "	Sheath	
Blade Thickness	.3/32"	Made In	U.S.A.

Spyderco, Inc.

LAGUIOLE (pronounced La • yol in French) This beautiful design originated in a French village of the same name. Since the early 1800's this village has been famous worldwide for the small scale manufacturing and unique design of this particular knife. Cutler Pierre-Jean Camels originally designed the Laguiole's sleek recognizable features. The round, downward curving handle and long slender blade give this age old design a truly distinguished look. The bee on the handle has become known as the Laquiole logo, due to the large amount of bees that swarmed throughout the village.

Spyderco's Laguiole incorporates the same basic features with which it was originally created. They have given it added elegance with sleek black handles accented with brass liner and pins. A positive front lock is used and the traditional bee sits at the base of the blade. A beautiful form fitted leather sheath is provided. Available in a SpyderEdge or PlainEdge version. Suggested retail $119.95. **MODEL #RC-L GOLDEN EDGE $107.95**

Blade Steel	G2	Weight	2.6 oz.
Overall Length	8 1/2"	Handle	Plastic
Edge Length	3 1/2"	Sheath	Leather
Blade Thickness	1/8"	Made In	Japan



TRU-BALANCE

Harry McEvoy, designer and crafter of Tru-Balance knives, passed away in January of '93 but his legend lives on as one of the foremost experts in the knife throwing arena. His son, Stephen McEvoy, carries on the tradition of producing some of the best throwing knives available. These knives are crafted to combine form with function and easily withstand the punishment of being thrown repeatedly at wooden targets. Tru-Balance performance sets the standard among professional knife throwers and amateurs alike.

We are proud to carry the **Sport-Pro**, Tru-Bal's most popular throwing knife. This model is designed for throwing in the professional style. It combines all the best features of throwing knives used by the world's greatest professional throwers. It is hurled equally well by handle or blade for amazing accuracy (of course, this takes a bit of practice and control). The super-tough tempered spring steel from which the knife is crafted will stand up to a lifetime of rugged use.
MODEL #TB-SP GOLDEN EDGE $19.00 each.

Buy 2 for $37.00 or 3 for $54.00

Blade Steel Spring steel	Weight .....15 oz.

TAK

The TAK FOLDER is a unique piece of work. The blade is ground from a material called YTZP, similar to Zirconia diamonds. It is fired in kilns to temperatures exceeding 3,000° F. It is then subjected to Hydro Isostatic Pressure of tremendous tonnage. Grinding is accomplished with lapidary equipment instead of knifemaking equipment. The handle on the Tak folder is formed from a magnesium alloy for lightweight and strength. Made from stainless steel, the rear lock is ground to fit the notched tang of the YTZP blade.
Suggested retail $99.95.
MODEL #TF-C
GOLDEN EDGE "SPECIAL" $86.30

Blade	YTZP Ceramic
Overall Length	4 3/4"
Edge Length	1 3/4"

FREE SERRATION MAINTENANCE STONE—Buy any Spyderco SpyderEdge CLIPIT™ and we'll throw in a serration maintenance stone for free! These stones work well for maintaining the shape of serrations or smoothing any small nicks. (Not to be used in place of a sharpening stone.) Order your SpyderEdge CLIPIT today! Limit one stone per knife and be sure to specify fine grit or medium grit. Offer good while supplies last.
RETAIL VALUE $14.95.

ORDERING

1. Call toll-free from 8:00am to 5:30pm, Monday-Friday. 1-800-828-1925.
2. Fax your order anytime. Simply complete the order form below and fax to: 1-303-278-2057.
3. Mail your order by simply completing the order form below and sending to:
   Golden Edge Cutlery
   P.O. Box 1279
   16350 S. Golden Road
   Golden, CO 80401
4. We accept personal checks, money orders, Visa, MasterCard, Discover and American Express.

SHIPPING We take pride in shipping your order the same day we receive it or the next business day (depending on what time of day we receive the order). We will notify you promptly if an item has to be backordered.

We gladly pay for UPS ground shipping to anywhere in the United States. This includes Alaska and Hawaii—we won't penalize you for being further away! We ship UPS as it is easier to trace and insure the packages. If you must have your package sent via U.S. Mail, or to a post office box, we must charge an extra $5.00 to insure the package.

SPLINTER TWEEZERS by Mausuen. The pointed tip on these tweezers make them ideal for even the smallest splinters or metal shavings. Great for keeping the lock on your favorite pocket knife free of lint. To ensure safety with your knife, always check the face of the lock and the notch in the back of the blade for built up lint and grime. **MODEL #MA-TW GOLDEN EDGE $5.00**

FLITZ™ Internationally known as one of the best polishing agents available for stainless steel, aluminum, chrome, silver, gold, brass, anodized aluminum, fiberglass, plexiglas and more! Removes as well as protects against rust, oxidation, water stains, salt & fresh water corrosion. .35 oz. tube. **MODEL #FZ-1 GOLDEN EDGE $3.75**

SUNSHINE CLOTH™ Restore shine and luster instantly to your collector knives. This dry, felt-like material is impregnated with special no-scratch micro-abrasives and a chemical cleansing agent. Great for precious metals, mirrors, plated surfaces, wood, glass, ceramics, plastics, flatware and glassware. Cloth is 7 1/2″ × 5″.
MODEL #SU-1 GOLDEN EDGE $4.00

"This amazing little cloth performs exactly as advertised, as I have come to expect of all your products. It polishes to a remarkably high shine and is absolutely scratch free, in fact, doing a fine job of polishing out any small scratches present. Thank you very much for another outstanding product!" —David H. Taylor. Fond du Lac, WI.

If you need your order ASAP, we do offer UPS air service for an additional charge. Please see the chart below for 2nd Day and NEXT Day air rates.

If you live in Canada, please call for shipping charges. It is usually around $5.00.

UPS AIR SERVICE

2nd DAY	NEXT DAY
1lb. $5.75	$14.75
2lb. $6.50	$15.25
3lb. $7.25	$17.25
4lb. $7.75	$18.50
5lb. $8.50	$20.00

Give us a call, we'll be glad to estimate the weight of your purchase.

MAILING LISTS We respect your privacy. Our mailing list is kept confidential and never sold, loaned or traded.

If your mailing label is incorrect, you've received duplicate mailings, or you are planning to move, just give us a call and we'll make the changes.

☐ CHECK HERE if this order is to be a gift. We will send YOU the credit card receipt and your gift(s) to the RECIPIENT. If you would like us to include a short message, please list below.

Thank You!

WE'VE GROWN!

We are proud to introduce 13 new brands of quality cutlery to our catalog along with a wider selection of sharpening stones, both natural and man made. The credit goes to our "old faithful" customers who have always turned to us for the complete line of Spyderco products and to the countless new customers we welcome everyday.

We welcome the chance to meet your cutlery needs for 1994!
