

# Spyderco The Official Knives of the Professional Rodeo Cowboys Association

It's a tradition. It's a necessity.

The best gear produces the best performance. Spyderco is cutting performance.

We are honored to manufacture the official licensed knives of the Professional Rodeo Cowboys Association. Spyderco was the first manufacturer of folding knives to offer one-hand opening and closing with an opening hole, a pocket clip for convenient and secure carry, and serrations for unbelievable cutting power. We realize folks living a western lifestyle have distinctive cutting needs. It is our commitment to make superior pocket cutlery with only the best technologically advanced materials, high-carbon stainless steels and a continuing commitment to quality.

Integrity is Being Good Even if No One is Watching™

## C35BK "Q"™

Designed to provide minimal mass and weight yet perform with the structural integrity of a hard-working tool, the Spyderco PRCA version of the C35BK "Q" is a unique officially licensed product. The skeletal blade is laser cut to feature the PRCA rider emblem, then laser engraved with the PRCA logo. A handle of durable fiberglass-reinforced nylon resin has a formed wire SpringClip™ that can be placed on either side of the knife for left/right carry as well as on either end of the knife for tip-up or tip-down pocket carry.

C35BK "Q" PRCA Version	
Blade Steel.....	440C
Length Overall.....	5 3/4" 146mm
Length Blade.....	2 1/2" 64mm
Weight.....	1.0oz 28g
Edge Type.....	SpyderEdge
Hardness.....	Rc 58-60

## C52 Calypso Jr.™

Both Calypso Jr. knives feature a unique blade shape with a cusp on the spine for added thumb purchase, resulting in more controlled cutting performance. The C52BM comes with a glossy black linen handle of Micarta® that's attractive and lightweight. The C52 has a stainless steel handle, perfect for adding your own personal engraving or embellishment. The clothing clip is placed just above the pivot pin to allow the knife to ride deeply and securely in your pocket or attached to your belt or vest. The C52 is available with a PlainEdge™ or SpyderEdge™ blade.

C52 Calypso Jr. PRCA Version	
Blade Steel.....	AUS-8
Length Overall.....	6 11/16" 170mm
Length Blade.....	2 7/8" 73mm
Weight.....	8M-2.3oz 56g, S-3.8oz 108g
Edge Type.....	PlainEdge, SpyderEdge
Hardness.....	Rc 58-59

## C41BK Native™

The C41BK is a true USA native, manufactured in the United States. This home grown, mid-sized CLIPIT™ features a fiberglass-reinforced nylon resin handle with a bi-directional grip texture that helps keep your hand from slipping forward or backward while cutting. The stainless steel pocket clip can be mounted on either side of the knife by means of a hollowed-out screw that fits through, but retains, the lanyard hole (southpaws rejoice!). The combination of the blade hole and a front lock allows the knife to be opened and closed easily with one hand, even when your hands are gloved. Featuring a GIN-1 hollow-ground stainless steel blade, the Native is available in a SpyderEdge/PlainEdge combo or a full PlainEdge version.

C41BK Native PRCA Version	
Blade Steel.....	GIN-1
Length Overall.....	7" 178mm
Length Blade.....	3 1/8" 79mm
Weight.....	2.4oz 68g
Edge Type.....	PlainEdge, 50/50
Hardness.....	Rc 57-59

## C10 Endura™ & C11 Delica™

Spyderco offers the C10 Endura and C11 Delica with three fresh and innovative features: a reversible left/right stainless steel clip, an enhanced handle texture and an ATS-55 stainless steel blade. The new pocket clip detaches and can be affixed to either side of the handle.

A hollowed-out screw fits through (yet retains) the lanyard hole, holding the clip in place without pivoting or slipping. The fiberglass-reinforced nylon resin handle features a Volcano Grip™ pattern that offers comfortable improved handling and lasting durability. Both knives include modified skinning-style blades produced with a new stainless steel called ATS-55.

C10 Endura PRCA Version	
Blade Steel.....ATS-55	Length Overall.....8 11/16" 218mm
Length Blade.....3 3/4" 95mm	Weight.....2.9oz 82g
Edge Type...PlainEdge, SpyderEdge, 50/50	Hardness.....Rc 59-61

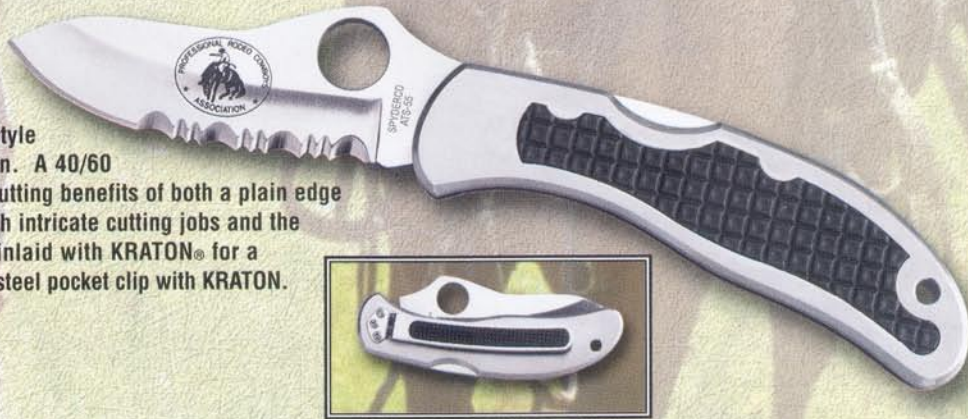

C11 Delica PRCA Version	
Blade Steel.....ATS-55	Length Overall.....6 7/8" 173mm
Length Blade.....2 7/8" 74mm	Weight.....1.9oz 54g
Edge Type...PlainEdge, SpyderEdge, 50/50	Hardness.....Rc 59-61

## C13 Pro-Venator™

One of Spyderco's most popular knives for stockmen and stockwomen alike, the Pro-Venator has a thick drop-point style blade and is ideal for tough cutting chores outdoors and in. A 40/60 PlainEdge/SpyderEdge blade configuration provides the cutting benefits of both a plain edge blade and a serrated blade in one knife, easily tackling both intricate cutting jobs and the roughest cuts. The front of the stainless steel handle is inlaid with KRATON® for a non-slip grip and the back of the handle features a stainless steel pocket clip with KRATON.

C13 Pro-Venator PRCA Version	
Blade Steel.....ATS-55	Length Overall.....6 5/8" 168mm
Length Blade.....2 3/4" 71mm	Weight.....4oz 112g
Edge Type.....40/60	Hardness.....Rc 59-61

## C45BK Rescue Jr.™

If you're cutting around livestock, the Rescue Jr. offers up incredible cutting power in a "safety style" blade. The sheepfoot blunt-nose tip lets you cut without the danger of stabbing or puncturing. Available in a fully serrated SpyderEdge configuration only, the hollow-ground blade maintains a consistent thickness from heel to tip for durability and added strength. This unique blade style is matched up with a lightweight handle of fiberglass-reinforced nylon resin and a left/right reversible clip.

C45BK Rescue Jr. PRCA Version	
Blade Steel.....ATS-55	Length Overall.....7 1/8" 183mm
Length Blade.....3 1/8" 79mm	Weight.....2.1oz 59.9g
Edge Type.....SpyderEdge	Hardness.....Rc 59-61
