Dragonfly C28BK

Super lightweight with an ergonomically correct FRN handle, integral pocket clip and volcano grip texture.

Dragonfly C28BK

Blade SteelAUS-8
Blade Length 2 5/16" 58mm
Overall Length5 7/16" 138mm
Edge TypeP, S
Weight.....1.2oz 33g

Dragonfly SS C28

A heftier all stainless steel version of this great little knife.

Dragonfly SS C28

Blade Steel.....ATS-55
Blade Length2 5/16" 58mm
Overall Length5 7/16" 138mm
Edge TypeP, S
Weight.....2.6oz 73g

Cricket C29BK

Unique and tactile. The reverse "S" blade is ideal for crafts and detailed cutting. Carry it in your pocket or use it as a money clip.

Cricket C29BK

Blade Steel.....ATS-55
Blade Length1 7/8" 48mm
Overall Length4 11/16" 117mm
Edge TypeP, S
Weight.....1.25oz 36g

Dyad Jr. C39BK

Double your cutting power. Two distinct blades in one knife provide twice the cutting performance. Features both a flat-ground clip-point style and a hollow ground sheepfoot blade.

Dyad Jr. C39PSBK

Blade Steel.....ATS-55
Blade Length2 1/4" 58mm
Overall Length5 5/8" 143mm
Edge TypeP, S
Weight.....1.5oz 43g

Native

C41BK

Featuring an ergonomic handle with a bi-directional pattern for amplified grip. The blade is hollow-ground with a reversible left/right clip.

Native C41BK

Blade Steel.....VG-10/CPM440V
Blade Length.....3 1/8" 80mm
Overall Length.....7" 179mm
Edge TypeP, 35/65
Weight.....2.4oz 69g

Peter Herbst

C53

German knifemaker Peter Herbst has integrated high tech components with Old World craftsmanship. This knife features a linerlock, lightweight Almite coated aluminum handle and a drop-point blade.

Peter Herbst C53

Blade Steel.....VG-10
Blade Length.....3 1/16" 78mm
Overall Length...7 5/32" 182mm
Edge Type.....P
Weight.....4 oz 113g

Native SS

C41

Same knife but with a stainless steel handle. Great for personalized engraving on the handle.

Native SS C41

Blade Steel.....AUS-10
Blade Length.....3 1/8" 80mm
Overall Length.....7" 178mm
Edge TypeP, 50/50
Weight.....4.6oz 131g

Tim Zowada

C56

The spearpoint blade incorporates a significant swedge which is hollow ground like the blade. The handle is bead blasted Micarta.

Tim Zowada C56

Blade Steel.....VG-10
Blade Length.....3 3/16" 81mm
Overall Length...7 11/16" 195mm
Edge Type.....P
Weight.....3.1oz 88g

Howard Viele

C42

Sleek and sophisticated, the Viele features a hollow-ground blade and a textured spine for performance cutting. Steel scales are partially covered with slabs of dark Micarta for a layered look.

Howard Viele C42

Blade Steel.....VG-10
Blade Length.....3 3/8" 86mm
Overall Length.....7 3/4" 197mm
Edge TypeP, S
Weight.....3.8oz 109g

D'Alton Holder Toad

C57

The smallest CLIPIT we offer. It has a drop point blade, our trademark hole and a satin-finished handle of lightweight Almite-coated aluminum.

D'Alton Holder Toad C57

Blade Steel.....AUS-8
Blade Length.....1 7/16" 36mm
Overall Length.....4" 102mm
Edge Type.....P
Weight.....1.8oz 52g

Eduard Bradichansky Sabaria

C59

Nomads in the Jordan River Valley have carried a Shabaria for centuries. Designed for everyday carry, the hour glass shaped handle slips into your palm and makes cutting comfortable. The unique handle is lustrous Micarta with a black clip.

Bradichansky Shabaria C59

Blade Steel.....	VG-10
Blade Length.....	3 13/16" 97mm
Overall Length.....	8 5/8" 219mm
Edge Type.....	P
Weight.....	3.33oz 94g

Navigator

C62

The Navigator combines serious cutting ability in a small package. Cut-outs in the Almite coated handle lessen the overall weight and add a high-performance profile.

Navigator C62

Blade Steel.....	VG-10
Blade Length.....	2 1/8" 54mm
Overall Length.....	5 3/8" 137mm
Edge Type.....	P, S
Weight.....	2oz 56g

MeerKat

C64

The MeerKat is handy with an entertaining feature. The Phantom Lock™ provides a unique closing system offering both strong lock integrity and it's addictively fun to open and close. Available in two blade styles: a modified drop-point and a reverse "S"-shape, both versions have a reversible wire clip.

NEW!

MeerKat C64

Blade Steel.....	440C/AUS-6
Blade Length.....	1 15/16" 50mm
Overall Length.....	5 1/4" 133mm
Edge Type.....	P, S
Weight.....	2.2oz 62g

Bob Lum Chinese Folder

C65

Designed by Bob Lum the C65 has a definite Asian flair. The leaf-shaped blade is flat-ground and made of VG-10 stainless. We've matched it up with an Imperial Jade Green Almite covered aluminum handle.

Chinese Folder C65

Blade Steel.....	VG-10
Blade Length.....	3 3/16" 80mm
Overall Length.....	7 3/16" 183mm
Edge Type.....	P, S
Weight.....	2.75oz 77g

Frank Centofante Vesuvius

C66

For 2002 we present a new handle variation of the popular Vesuvius design by custom knifemaker Frank Centofante. Both feature our Compression Lock. The original model comes with a vibrant blue shell inlaid FRN handle and the newcomer has a black FRN handle with a palladium silver Spyderco bug.

NEW!

NEW!

Frank Centofante Vesuvius C66

Blade Steel.....	ATS-34
Blade Length.....	3 1/8" 79mm
Overall Length.....	7 9/16" 192mm
Edge Type.....	P, S, 50/50
Weight.....	3.4oz 96g

Salsa C71

The Salsa is small in stature but large enough to handle hardy cutting jobs with ease. This model introduces our new Cobra Hood™ feature. Simply put, it's a textured metal cap positioned atop the blade making it easier to access the round hole and open the knife.

The Salsa comes in two varieties: a titanium handled version with an integral Compression Lock and a single position wire clip and an anodized aluminum handle model with a nested Compression Lock, a reversible wire clip and is available in three colors, blue, green and tan.

NEW!

NEW!

Salsa C71
Blade Steel.....ATS-34/AUS-8
Blade Length.....2 7/16" 63mm
Overall Length.....5 15/16" 152mm
Edge Type.....P, 50/50
Weight.....3.5oz 99g/2.7oz 75g

Ladybug LBK & LBKII

Our smallest knife with full Spyderco cutting power for key chain or pocket (no clip). Available in Black, Red, or Blue. The LBK II has a sheepfoot blade.

Ladybug LBK, Ladybug II LBKII
Blade Steel.....AUS-6
Blade Length.....1 15/16" 49mm 1 7/8" 48mm
Overall Length.....4 5/16" 108mm
Edge Type.....S, 50/50
Weight.....0.5 oz 16g, .6oz 16g

Jester JBK

Carry it on your keychain, in your purse or pocket, you'll love our new mini lockback, Jester. Surprisingly comfortable in your hand, we added texture along the spine near the tip and just behind the opening hole to assist you with intricate cuts required for craft projects. The handle is textured FRN, available in black, lime green and fuchsia.

NEW!

Jester JBK
Blade Steel.....AUS-6
Blade Length.....1 15/16" 49mm
Overall Length.....4 13/32" 112mm
Edge Type.....P, S
Weight.....0.6oz 16g

Mini Police Necklace MN07

This scaled down version of our Police Model is a functioning lockback knife with a titanium handle and 22" chain. Makes a great gift!

Mini Police Model Necklace MN07
Blade Steel.....ATS-34
Blade Length.....1 5/16" 33mm
Overall Length.....3 1/8" 79mm
Edge Type.....S
Weight.....0.5oz 5g

SpyderCard SC01

The "credit" for this one goes to Israeli knifemaker Eduard Bradichansky. Flat as a pancake, it's designed to lay flush in your wallet or back pocket. The locking blade closes by releasing the liner through the hole in the handle.

Bradichansky SpyderCard SC01
Blade Steel.....AUS-6
Blade Length.....2 13/16" 72mm
Overall Length.....6 1/4" 159mm
Edge Type.....P, 50/50
Weight.....3.25oz 93g

The Spyderco Story

If you are a true SpyderNut or just curious, The Spyderco Story tells it all. Ken Delavigne captures the history of Spyderco from its inception to the present. Published by Paladin Press it is chock full of information and photos.

SpydeRench T01

Spyderco's first entry into the multi-tool market features a knife, two position slip-joint pliers, adjustable wrench, four standard screwdriver bits, a long bit that is also a three-sided diamond file and of course a pocket clip.

SpydeRench T01	
Blade Steel.....	440C
Blade Length.....	2 1/2" 63mm
Overall Length.....	7 3/32" 180mm
Edge Type.....	P, S, 50/50
Weight.....	7.6oz 217g

Harpy C08

Originally made for the marine industry, the Harpy and Merlin feature a hawkbill blade for impressive rope, line, webbing and general purpose cutting. The David Boye locking lever dent has been added to both the C08S and C08BK.

Harpy C08S	
Blade Steel.....	VG-10
Blade Length.....	2 3/4" 70mm
Overall Length.....	6 1/2" 165mm
Edge Type.....	P, S
Weight.....	3.75oz 106g

Merlin C08BK

NEW!

This lightweight has an FRN textured handle and ambidextrous clip.

Merlin C08SBK	
Blade Steel.....	VG-10
Blade Length.....	2 7/8" 73mm
Overall Length.....	6 7/16" 164mm
Edge Type.....	P, S
Weight.....	2.5oz 71g

Pro-Grip SS C13

A perfect field/outdoor companion with a thick drop-point tip. Kraton handle/clip inlays give it a non-slip grip.

Pro-Grip SS C13	
Blade Steel.....	VG-10
Blade Length.....	2 13/16" 71mm
Overall Length.....	6 5/8" 168mm
Edge Type.....	P, 50/50
Weight.....	.4oz 112g

Pro-Grip C13BK

Pro-Grip C13BK	
Blade Steel.....	VG-10
Blade Length.....	2 3/4" 71mm
Overall Length.....	6 5/8" 168mm
Edge Type.....	P, 50/50
Weight.....	1.9oz 58g

A lightweight version with a FRN handle. An inlaid panel of Kraton on the front and another found under the pocket clip amplify both comfort and grip.

Catcherman

C17

A big, bold folding filet knife. The semi-flexible blade is flat ground with a thinner tip for precision cutting and cleaning. It also has a small section of serrations for tough cuts.

Catcherman C17

Blade Steel.....	MBS-26
Blade Length.....	4 3/4" 121mm
Overall Length.....	10 7/16" 265mm
Edge Type.....75/25
Weight.....	2.8oz 80g

Snap-It

C26

Snap-It anywhere, to a carabiner, vest, PFD or belt loop. Features a wichard style snap shackle for rapid deployment and secure carry in active situations.

Snap-It C26BKEMT

Blade Steel.....	AUS-8
Blade Length.....	3" 76mm
Overall Length.....	6 7/8" 174mm
Edge Type.....S
Weight.....	2.5oz 70g

Bill Moran Featherweights

FB01 / FB02

Spyderco's first fixed blade knives are a classic Bill Moran design. The size, weight and shape of these "utility designs" are carefully balanced. Ultra lightweight handles include rubber Kraton inlays. The FB01 has an upswept blade and the FB02 has a drop point. Both come with their own Kydex sheath which incorporates a Tek-Lok fastening system.

Featherweight FB01

Blade Steel.....	VG-10
Blade Length.....	3 7/8" 99mm
Overall Length.....	8" 203mm
Edge Type.....P
Weight.....	3oz 84g

Drop Point FB02

Blade Steel.....	VG-10
Blade Length.....	3 7/8" 99mm
Overall Length.....	8 1/16" 205mm
Edge Type.....P
Weight.....	3oz 84g

Bob Lum Tanto

FB03

Spyderco's first Tanto-style fixed blade is designed by custom knifemaker Bob Lum. The blade has a Hamaguri (applesed) grind at the tip for added strength and a swedge grind along the spine lessens overall weight. The expanded hand guard makes it comfortable in the palm and a tapered tang runs the full length of the black linen Micarta handle. Included is a leather sheath.

NEW!

Bob Lum Tanto FB03

Blade Steel.....	AUS-8
Blade Length.....	4 3/16" 107mm
Overall Length.....	8 7/16" 215mm
Edge Type.....P
Weight.....	4.5oz 126g

Fred Perrin

FB04

Ingenuously utilitarian, the FB04 is designed by Fred Perrin, a former French Army Commando and world-class martial artist. At home in the field, camp or even in the kitchen, the molded black FRN handle has Kraton insets for nonstop grip. Included is a Kydex sheath.

NEW!

Fred Perrin Bowie FB04

Blade Steel.....	VG-10
Blade Length.....	5" 127mm
Overall Length.....	9 3/8" 238mm
Edge Type.....P
Weight.....	3.75oz 107g

NEW!

Temperance FB05

Blade Steel.....	VG-10
Blade Length.....	4 1/8" 104mm
Overall Length.....	9 5/8" 243mm
Edge Type.....P S
Weight.....	5.625oz 159g

Temperance

FB05

Sporting a flat-ground 4 1/8" blade, the Temperance is at home on the hunt, in the camp or even preparing food. The molded FRN handle is ergonomically designed for comfort with four depressions positioned for indexing and a flattened area on theommel of the handle for enhanced grip. Comes with a Kydex sheath. Also available is a matching trainer; see page 19.

Endura SS

C10

Heartier and heftier stainless steel handled version of our classic best seller. New for 2002 we added the David Boye dent to the locking lever.

Endura SS C10	
Blade Steel.....	AUS-6
Blade Length.....	3 3/4" 96mm
Overall Length.....	8 1/2" 216mm
Edge Type.....	P, S, 50/50
Weight.....	5.5oz 156g

IMPROVED!

Endura

C10BK

A favorite carry of serving and saving professionals, the Endura lives up to its name. It's durable and enduring. For 2002 we've changed the steel to VG-10 with a new grind that is flat, not hollow. The black FRN handle has deep volcano grip texturing and a black ambidextrous clip.

IMPROVED!

Endura C10BK

Blade Steel.....	VG-10
Blade Length.....	3 15/16" 100mm
Overall Length.....	8 13/16" 223mm
Edge Type.....	P, S, 50/50
Weight.....	2.9oz 82g

Endura Trainer

C10TR

If you wanna get good, you gotta practice! The Endura Trainer is a non-sharpened version of the original. Great for practicing one hand opening/closing, safe handling and martial arts applications. Same size and weight as the "live" knife, the trainer comes with a red FRN handle and rounded safety tip.

Endura Trainer C10TR

Blade Steel.....	AUS-6
Blade Length.....	3 15/16" 100mm
Overall Length.....	8 7/8" 223mm
Edge Type.....	N/A
Weight.....	3.14oz 89g

Delica SS

C11

The all stainless steel version of our ever-popular Delica has had the David Boye dent added to the locking lever allowing for a tight grip without unlocking the blade.

IMPROVED!

Delica SS C11

Blade Steel.....	AUS-6
Blade Length.....	2 7/8" 72mm
Overall Length.....	6 13/16" 173mm
Edge Type.....	P, S, 50/50
Weight.....	4 oz 110g

Delica

C11BK

The 2002 Delica has been improved by changing the steel to VG-10 and the grind to flat, not hollow. We kept the David Boye dent in the locking lever as well as the FRN handle with the volcano grip pattern and ambidextrous black clip.

IMPROVED!

Delica C11BK

Blade Steel.....	VG-10
Blade Length.....	3" 77mm
Overall Length.....	7" 177mm
Edge Type.....	P, S, 50/50
Weight.....	1.9oz 54g

Delica Trainer

C11TR

Ever wish you had training wheels for your folder? Take the C11TR around the block to learn how to safely handle, retrieve and open/close a Spyderco CLIPIT. The trainer comes with a non-sharpened blade that's identical in size, shape and weight to the "live" version. The red FRN handle distinguishes it as a "drone."

Delica Trainer C11TR

Blade Steel.....	AUS-6
Blade Length.....	3" 77mm
Overall Length.....	7" 177mm
Edge Type.....	N/A
Weight.....	2.1oz 60g

Police Model

C07 Surprisingly comfortable, it packs as much blade length as possible in a slim handle. The all-stainless model has a hollow-ground blade and David Boye's locking lever dent. That small divot cut out of the lock release lever minimizes the possibility of gripping the handle tightly enough to inadvertently release the lock during use. Safe, secure and sharp.

Police Model C07
Blade Steel.....VG-10
Blade Length.....4 1/8" 104mm
Overall Length.....9 7/16" 240mm
Edge Type.....P, S, 50/50
Weight.....5.5 oz 155g

Rescue Jr.

C45OR/BK

The Rescue sheepfoot blade has a rounded tip for safety cutting. Popular with emergency personnel, rafters and ranchers. The FRN handle comes in black and safety orange.

Rescue Jr. C45
Blade Steel.....VG-10
Blade Length.....3 1/8" 79mm
Overall Length.....7 3/16" 183mm
Edge Type.....S
Weight.....2.1 oz 60g

Military Model

C36GE Designed for heavy use field applications like stripping branches, food prep., even tactical usage. This is a no-nonsense all around cutting tool without the bells and whistles.

Military Model C36GE
Blade Steel.....CPM440V
Blade Length.....4" 102mm
Overall Length.....9 1/2" 242mm
Edge Type.....P, S, 50/50
Weight.....4 oz 113g

Bob Lum

C46

Tanto, tactical and tough. The Bob Lum tanto-style model features a hollow ground blade with a "hamaguri"/appleseed grind at the tip for extra strength. The blade has a black non-reflective coating and the handle is black G-10 with a black clip for tip-up carry.

Bob Lum C46
Blade Steel.....ATS-55
Blade Length.....3 13/16" 97mm
Overall Length.....8 3/4" 223mm
Edge Type.....P, 60/40
Weight.....5.1oz 145g

Martial Blade Craft (MBC) is a term that Spyderco developed to describe bladed combat arts. The term "knife fighting" is not only negative but quite unrealistic since "knife fighting" rarely occurs and is used more for Hollywood glamour. Martial Blade Craft is an art form that will one day find Olympic presence as does Judo and Fencing.

However, studied as an art form, Judo, Martial Blade Craft or any other martial art does have value in self protection, should the need arise. The purpose of any martial art is (or should be) to stop the bad guy from hurting the innocents.

Massad Ayoob

C60

A noted authority on firearms, Massad Ayoob's model has a radically curved handle that directs the blade wherever you point your wrist. The handle is Almite coated aluminum.

Massad Ayoob C60
 Blade Steel.....VG-10
 Blade Length.....3 5/8" 92mm
 Overall Length.....8 7/16" 215mm
 Edge Type.....P
 Weight.....4.3oz 122g

Bram Frank Gunting

C68 / C68TR

The Gunting folder is taking the Martial Blade Craft industry by storm. Bram Frank designed the C68 to be highly specialized. Use it closed, (to apply non-lethal pressure point control as with a Yawara stick), or opened as a knife. The G-10 handle and spoon clip have position divots for indexing/rotating the knife into various grips. It comes with a spine-mounted Compression Lock that's user friendly and offers superior lock strength.

Achieve mastery and competency of your Gunting with the trainer version. Same as the "live" knife

but with an unsharpened blade and rounded tip. Has indexing divots for MBC practice.

Gunting C68
 Blade Steel.....CPM440V
 Blade Length.....2 7/8" 74mm
 Overall Length.....8" 202mm
 Edge Type.....P 50/50
 Weight.....5.9oz 168g

Gunting Trainer C68TR
 Blade Steel.....GIN-1
 Blade Length.....3 1/16" 77mm
 Overall Length.....8 1/16" 205mm
 Edge Type.....N/A
 Weight.....5.7oz 161g

James A. Keating Chinook

C63

James A. Keating, a Master-at-Arms, designed this "brute" of a knife. The upswept Bowie-style blade is made of CPM440V steel with substantial belly for skinning and field dressing. This is a hefty knife with a very strong lock.

Chinook C63
 Blade Steel.....CPM440V
 Blade Length.....3 3/4" 95mm
 Overall Length.....8 9/16" 217mm
 Edge Type.....P 50/50
 Weight.....7.25oz 205g

Lil' Temperance

C69

An ergonomically designed powerhouse equipped with handle divots for indexing, a palm fitting G-10 handle and streamlined clip (all beneficial for practicing MBC). Its' 3 inch blade length makes it legal for carry most anywhere and is available in two blade shapes, an upswept trailing point and a modified spear-point. The Compression Lock is nested in the green G-10 handle.

Lil' Temperance C69
 Blade Steel.....CPM440V
 Blade Length.....3" 76mm
 Overall Length.....7 3/16" 182mm
 Edge Type.....P
 Weight.....4.25oz 121g

Temperance Trainer FB05TR
 Blade Steel.....AUS-6
 Blade Length.....4 5/16" 109mm
 Overall Length.....9 1/2" 240mm
 Edge Type.....N/A
 Weight.....5.2oz 146g

Temperance Trainer

FB05TR

For those practicing MBC with a fixed blade we developed the Temperance Trainer. It is identical to the "live" knife in size and weight but with a rounded tip and unsharpened edge. Its' ergonomic red handle has four divots for easy indexing and a flattened pommel for complete control. Kydex sheath available. Live knife on page 13.

Triangle Sharpmaker 204MF

The Tri-Angle Sharpmaker is the most effective and versatile sharpening tool in the world. It comes with fine and medium grit stones in a compact polymer case. Instructional booklet and video included.

Hatchets & Axes

Scissors & Shears

Small & Shaped Knives

Large Knives

Plain & Serrated Edges

Chisels & Tools

Carving Tools

Razors

In short, if its got an edge or a point the Tri-Angle Sharpmaker will keep it sharp for life!

Pocket Stone 305M
1 15/16" x 3 1/4" x 1/4"

Spyderco's philosophy is simple. From our smallest Ladybug to our large Military model, Spyderco consistently delivers reliable high performance. Period.

The Round Hole

The Spyderco Trademark Round Hole™ is a symbol of quality but also adds an important function: One-hand opening. Settle your thumb over the hole and open the knife blade by applying pressure. Your thumb pad rotates for enhanced control and fluid opening. One hand operation allows you to open your knife, make the cut, close the folder and replace it in your pocket. This works even when hands are wet, oily or gloved.

The Spyderco CLIPIT

The term CLIPIT applies to all Spyderco knives with a pocket clip, about 95% of our product line. We were the first company to install clothing clips on our knives in 1981. The rest of the knife industry followed suit. The clip securely attaches the knife inside the edge of your pocket near-at-hand for quick and simple retrieval. You can also 'clip it' to a handbag, use it as a money clip or attach it to outdoor gear and attire.

Why the SpyderEdge?

Spyderco is synonymous with serrations because ours work as intended. Most others don't. Our serration pattern features one large curve followed by two small curves, we call a SpyderEdge™. Serrations actually increase the amount of overall cutting edge length. The teeth initiate the cut letting the sharpened curved recesses continue cutting after the teeth penetrate. Since the tips of the teeth do the hard work, the inside curves stay sharp longer. This translates into enhanced cutting power and long lasting edge retention. Serrations work well on aggressive cutting chores like cardboard, rope, webbing and fibrous material. Fine or intricate cutting jobs, like whittling and caping, often call for a PlainEdge™ blade. This is why we offer models in either a fully SpyderEdge™ or PlainEdge™ configuration and many in a combination of both.

Spyderco Techno-Junkies

Quality and innovation are Spyderco's highest priority. Our R&D lab researchers sink years of testing and engineering into each model. To maintain our high quality standards (and continually raise the bar) we test, retest and compile technical data on blade steels, lock system strength, and high performance materials. Blade steels: Our steels are subjected to hardness, corrosion and edge retention studies. Lock Strength: Every Spyderco model meets and (often surpasses) our set standards for lock strength. High Performance Materials: Advances in technology offer the knife industry limitless materials to enhance performance. We

test new manufacturing techniques and materials that offer superior longevity, chemical resistance, lightweight strength and visual appeal.

Warranty and Repair

When you purchase a Spyderco knife you are buying twenty-five years experience in manufacturing quality products. If properly cared for your knife will last a lifetime (this does not include abuse, misuse, loss or theft). If you experience problems with any function of your CLIPIT, we want to know. Please call, email or write us at 1-800-525-7770, custsvc@spyderco.com, 820 Spyderco Way, Golden, CO 80403. We're available to answer your questions Monday through Friday from 8:00-5:00 Mountain Standard Time.

Where's it From?

Spyderco manufactures knives in our Golden, Colorado plant and in several premier facilities in Seki City, Japan and Taiwan. Our Golden site is growing. Its close proximity to the R&D team allows development, testing and the manufacture of high performance products in one place, in less time. Whether the model you choose is manufactured in Golden, Seki City or Taiwan it meets Spyderco's level of quality craftsmanship and elite performance.

Custom Knife Designs

Owning custom made knives has long been an exclusive luxury. Handmade pieces carry the personality and innovation of the maker. They also carry the price tag. In 1990 we joined forces with a prominent custom knifemaker. The rest is history. By uniting custom designs with Spyderco features we offer new advances to the cutlery industry. It's the best of both worlds.
